a- ./wheite elephant

b- ;/whteie elephant

c- ?/ hwite elephant

d- ./ white elephant

Question Two: (20 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

The King Hussein Cancer Center (KHCC) is Jordan's only comprehensive cancer treatment centre. It treats both adult and paediatric patients. As the population of the country increases, more and more families will rely on the hospital for cancer treatment. Patients come not only from Jordan but also from other countries in the region, as they are attracted by its excellent reputation, lower costs, and cultural and language similarities.

In order to cope with the increase in demand for treatment, the KHCC has begun an expansion programme. Building started in 2011 CE. The hospital will have more than doubled its capacity by 2016 CE, increasing space for new cancer cases from 3,500 per year to 9,000.

By then, they will have added 182 extra beds, along with bigger units for different departments, including radiotherapy. New adult and paediatric wards will have opened. Additionally, they will have built a special ten-floor outpatients' building, with an education centre which will include teaching rooms and a library.

Many cancer patients live far away from Amman, where the KHCC is located, and the journey to and from the hospital is often difficult. For this reason, there are plans to extend cancer care facilities to other parts of Jordan. In the near future, King Abdullah University Hospital in Irbid hopes to set up radiotherapy machines, so that cancer patients from northern Jordan will not have to go to Amman for radiotherapy treatment.

- 1- There are some reasons that make patients from other countries visit King Hussein Cancer Center. Write down two of them. (4 points)
- 2- What does the underlined pronoun 'It' refer to? (3 points)
- 3- Write down the sentence which shows the reason for extending the cancer care facilities to other parts of Jordan. (3 points)
- 4- Why has the KHCC begun an expansion programme? (3 points)
- 5- Find a word in the text which means '**the use of controlled amounts of radiation to treat disease, especially cancer**'. (3 points)
- 6- Friends of people with cancer often want to help, but they do not know what to do. Suggest three ideas for supporting a friend with cancer. (4 points)
