- A) she could swim when she is six.  
B) she could swim when she was six.  
C) she could swim when I had been six.  
D) she could swim when she wasn't six.

30) They haven't decided anything yet.

- A) Nothing had been decided yet.  
B) Nothing hasn't been decided yet.  
C) Nothing have been decided yet.  
D) Nothing has been decided yet.

**QUESTION TWO: (10 POINTS)**

**Read the following text carefully, and then answer all the questions that follow. Your answers should be based on the text.**

Health conditions in Jordan are among the best in the Middle East. This is largely due to the country's commitment to making healthcare for all a top priority. Advances in education, economic conditions, sanitation, clean water, diet and housing have made our community healthier.

As a result of careful planning, the number of healthcare services has been increasing rapidly over the past years. More than 800 different kinds of healthcare centres have been built, as well as 188 dental clinics. In 2014, 98 per cent of Jordanian children were fully immunised, thanks to immunisation teams that had been working towards this goal for several years. Although there were remote areas of the country where people had been without consistent access to electricity and safe water, almost 99 per cent of the country's population now has access.

Although the country has been focusing mainly on improving its primary healthcare facilities, it has not neglected its advanced medical facilities. The reputation of Jordanian doctors has spread in the region, and now many more patients come to Jordan for open heart surgery. In Jordan, the open-heart surgery programme started in 1970 CE in Amman.

The low infant mortality rate, as well as the excellent healthcare system, have been contributing factors to Jordan's healthy population growth, which will result in a strong work force with economic benefits for the whole country.

1. What kind of medical operation has Jordan made the most success? (1 point)  
.....
2. What does the underlined word (its) refer to? (1 point)  
.....
3. What is the current percentage of the consistent accessibility for electricity and safe water in Jordan? (1 point)  
.....
4. The report states two contributing factors to Jordan's healthy population growth. Write these two factors down. (2 points)  
.....  
.....
5. Find a phrasal verb in the text which means "to direct your attention or effort at something specific". (2 points)  
.....
6. "Wherever the art of Medicine is loved, there is also a love of Humanity". Think of this quotation and, in two sentences, write down your point of view. (3 Points)  
.....
