اقرأ النص التالي ثم اجب عن الأسئلة التي تحته في دفتر إجابتك – اجاباتك يجب ان تكون مبنية على النص

Adnan, a professional craftsman, is at work in his studio. With the oven at 1,400 degrees Centigrade, 20 hours a day, a glass-making studio isn't the most comfortable place to be. For Adnan, however, this is more than just a job.

'My family has been blowing glass for around 700 years,' he says. 'My father learnt the craft from his father, and he taught it to me when I was a child.'

Adnan is passionate about this ancient craft, and regularly gives demonstrations and workshops to teach young people the skills of glassblowing.

He strongly believes that unless we interest more young people in learning the craft, nobody will know how to make hand-blown glass in the future. 'These days, young people don't always want to follow their parents' professions, and, added to that, glassblowing isn't an easy job. It has to be an obsession, as it is for me!'

Adnan still uses the technique that was first developed by the Phoenicians some 2,000 years ago. , he pushes a thin metal blowpipe into the boiling hot furnace. , he lifts out the liquid sand and lays it on a metal plate.

After that, he blows the red-hot glass until it becomes more flexible. Then he pulls and bends the glass into shape. He has to work extremely quickly because the liquid sand is already solidifying into glass. Adnan is making a delicate swan. Through the semi-opaque glass, you can see fine lines of turquoise, green and blue. 'The sand gives us transparent, or "white", glass,' Adnan explains. 'We get this beautiful dark, cobalt blue by adding the metal cobalt to the melted glass. Then, this blue becomes a lighter, sea-green turquoise after adding copper. Finally, we decorate the glass by hand.'

'These days we recycle broken glass. We also use commercially produced colours instead of using natural ingredients as in the past. Apart from that, nothing else about this craft has changed through the centuries. You can't use a machine to do this work,' he says. 'The old ways are still the best.'

- 1- Many changes happened to the craft of glass blowing . Write down two of these changes ?
- 2- Quote the sentence which shows that the craft of glass blowing has been a tradition in Adnan's family ?
- 3- According to the text , There are many steps before creating glass , Write down two of these steps.
- 4- Adnan's work is extremely difficult , write down two evidences to prove this ?
- 5- The underlined pronoun " it " in the first paragraph refers to .....
- 6- Find a word which means " clear or thin enough to see through".

## - Critical thinking

1- It is said that 'Traditional crafts have no place in today's society.' Think of this statement and write your point of view

2- Adnan is passionate about this ancient craft, and regularly gives demonstrations and workshops to teach young people the skills of glassblowing . Suggest three ways to motivate young people to learn traditional crafts .

# Literature Spot

- Read the following lines from “the old man and the sea ”, and then answer the questions that follow:

The next morning, Santiago leaves early and sails far out to sea to try his luck again. Eventually, he feels a bite on one of his hooks, and he works out that it must be a big fish, perhaps a marlin. The fish is strong, though, and does not come up to the surface. Instead, the fish swims away, dragging the old man and his boat along.

This goes on until the sun goes down, and eventually Santiago can't see the land any more at all.

As night falls, he wraps the fishing line around himself, and goes to sleep, leaving his left hand on the rope to wake him if the marlin surfaces. Soon, the old man is asleep, dreaming of the lions he used to see when he was a boy in Africa.

- 1- How did Santiago know that it was a big fish ?
- 2- Why does Santiago tie the rope around his hand when he goes to sleep ?

## اجوبة القطعة

- 1- These days we recycle broken glass. We also use commercially produced colours instead of using natural ingredients as in the past.
- 2- ‘My family has been blowing glass for around 700 years,’ he says.
- 3- he pushes a thin metal blowpipe into the boiling hot furnace. , he lifts out the liquid sand and lays it on a metal plate
- 4- With the oven at 1,400 degrees Centigrade, 20 hours a day.
- 5- It =Glass blowing
- 6- transparent

## اجوبة التفكير الناقد

- 1- - I think traditional crafts have disappeared due to many factors , first of all , the overly dependence on modern technology , also because traditional crafts don't earn enough money for people who work in these crafts .
- 2- We can motivate young people to learn crafts in many different ways , first we can make exhibitions to show the importance of crafts , we can also finance young people to start learning traditional crafts .Finally , we can build workshops for young people who want to work in these crafts.

## اجوبة الادب

- 1- It drags the boat along for a long time, so it must be a big fish. .
- 2- To wake him if the marlin surfaces.

# Marwan El-Masri & Jalal Abu Khadra

It's normal to feel a bit blue from time to time. However, studies show that negative emotions can harm the body. When you see red, your blood pressure is raised and you can suffer from headaches, sleep problems and digestive problems. However, what about positive feelings and attitudes? Until recently, scientists had not investigated whether there is a link between positive feelings and good health.

Then, in a study that had followed more than 6,000 men and women aged 25 to 74 for 20 years, researchers found that positivity reduced the risk of heart disease. Other factors influencing health included a supportive network of family and friends, and an optimistic outlook on life.

The research showed that children who were more able to stay focused on a task, and who had a more positive attitude to life at age seven, were usually in better health 30 years later.

The study has been controversial. Some health professionals believe that bad lifestyle choices, such as smoking or lack of exercise, are the reason for heart disease and other illnesses, and not an individual's attitude. The researchers, while agreeing, raise the question: why are people making bad lifestyle decisions? Do more optimistic people make better and healthier lifestyle choices?

The researchers appreciate that not everyone's personal circumstances and environment make it possible to live without worry. However, they believe that if we teach children to develop positive thinking, and to 'bounce back' after a setback, these qualities will improve their overall health in the future.

- 1- There are many reasons that cause heart diseases , write down of these reasons .
- 2- Quote the sentence which shows that it is sometimes natural to feel depressed .
- 3- According to your understanding to the color idioms , what does the underlined colour idiom " feel a bit blue " mean ?
- 4- The underlined pronoun "they " in the last paragraph refers to .....
- 5- There are many qualities that will improve children's health , write down two of these qualities .

## - Critical thinking

- 1- it's said locally and internationally that happier people are healthier . Think of this statement and in two sentences write your point of view.
  - 2- There are many good life style choices , explain this suggesting three good life style choices.
-

- Read the following extraction from "All the world a stage " and answer the questions that follow ?

At first, the infant,  
Mewling and puking in the nurse's arms.  
Then the whining schoolboy, with his satchel  
And shining morning face, creeping like snail  
Unwillingly to school. ...  
Then a soldier,  
Full of strange oaths and bearded like the pard,  
Jealous in honor, sudden and quick in quarrel,  
Seeking the bubble reputation  
Even in the cannon's mouth.

- 1- Which simile does the playwright use to describe the schoolboy as he walks to school?
- 2- What does " seeking the bubble reputation " mean ?
- 3- Write down the name of a job mentioned in this extraction ?

اجوبة القطعة

- 1-smoking and lack of exercise
- 2-It's normal to feel a bit blue from time to time
- 3-become sad .
- 4-they = the researchers
- 5-Teach children develop positive thinking and to bounce back after a set back.

اجوبة التفكير الناقد

- 1- I think that happier people are more able to cope with stress , so they can deal easily with difficult situations.
- 2- Good life style choices can improve our health .There are many good life style choices , such as getting enough food , eating fruit and vegetables. exercising can also improve our health .

اجوبة الادب

- 1- The poet uses 'creeping like snail' meaning going very slowly
- 2- he does things that make him look good even if they are pointless
- 3- a soldier .

**Marwan El-Masri & Jalal Abu Khadra**

Health conditions in Jordan are among the best in the Middle East. This is largely due to the country's commitment to making healthcare for all a top priority. Advances in education, economic conditions, sanitation, clean water, diet and housing have made our community healthier.

As a result of careful planning, the number of healthcare services has been increasing rapidly over the past years. More than 800 different kinds of healthcare centres have been built, as well as 188 dental clinics. In 2012 CE, 98 per cent of Jordanian children were fully immunised, thanks to immunisation teams that had been working towards this goal for several years.

Although there were remote areas of the country where people had been without consistent access to electricity and safe water, almost 99 per cent of the country's population now has access. Although the country has been focusing mainly on improving its primary healthcare facilities, it has not neglected its advanced medical facilities. The reputation of Jordanian doctors has spread in the region, and now many more patients come to Jordan for open heart surgery. In Jordan, the open heart surgery programme started in 1970 CE in Amman.

The life expectancy figures show that Jordan's healthcare system is successful. In 1965 CE, the average Jordanian's life expectancy was age 50. In 2012 CE, this average life expectancy had risen to 73.5. According to UNICEF statistics, between 1981 CE and 1991 CE, Jordan's infant mortality rates declined more rapidly than anywhere else in the world – from 70 deaths per 1,000 births in 1981 CE to only 32 deaths per 1,000 births in 2014 CE. The low infant mortality rate, as well as the excellent healthcare system, have been contributing factors to Jordan's healthy population growth, which will result in a strong work force with economic benefits for the whole country.

- 1- The writer of the report illustrates that there are many obstacles to progress in the health conditions , mention two of them
- 2- write down the sentence which shows that most patients are internationally attracted by the excellent progressive medical facilities .
- 3- According to the report the successful , healthcare system in Jordan has led excellent results in the health field . Write down two of them .
- 4- What does the underlined pronoun "it" refer to ..?
- 5- Find a word in the report which means " people who are able to work " ?

### **- Critical thinking**

- 1- To be in a good health is really the ambition which any country is working on . Suggest three methods that can keep us become fitter and healthier .
- 2- The increase in population will affect Jordan's housing , education and health facilities . Think of this statement and in two sentences express your opinion .

**Marwan El-Masri & Jalal Abu Khadra**

## Phones Mobile الهواتف الخلوية

The Communication Revolution has changed the way we live, work and have fun. The mobile phone in particular has changed the way we communicate with the world around us. Although mobile phones were a luxury only a few decades ago, they are now considered necessities by many people.

The advantages of owning a mobile phone are obvious. You can talk with your friends and relatives who may live thousands of miles away. You can carry it wherever you go. You don't need a notebook to store phone numbers because your mobile phone has a memory. Moreover you can store your favourite video clips and song on its memory.

However, mobile phones are sometimes used improperly, especially by the young and teenagers. For example, they may use the mobile phones to disturb other people, send wrong information or store immoral clips and pictures. I think the mobile phone is a good invention which makes our communication system easier and faster.

**The advantages and disadvantages of the internet** فوائد و مساوئ الانترنت

Ten years ago, the Internet was practically unheard of by most people. Today, the Internet is one of the most powerful tools throughout the world. The Internet is a collection of various services and resources.

Many people fear the Internet because of its disadvantages. They claim to not use the Internet because they are afraid of the possible consequences or are simply not interested.

Another major disadvantage of the Internet is privacy. Electronic messages sent over the Internet can be easily tracked, revealing who is talking to whom and what they are talking about. As people surf the Internet, they are constantly giving information to web sites.

Despite all of the terrible disadvantages of the Internet, there are numerous advantages. In fact, the advantages weigh out the disadvantages. The most common thing the Internet is used for is research. Children and students are among the top people who use the Internet for research. Nowadays, it is almost required that students use the Internet for research.

In conclusion, today's society is in the middle of a technological boom. People can either choose to take advantage of this era, or simply let it pass them by. The Internet is a very powerful tool. It has many advantages; however, people need to be extremely aware of the disadvantages as well.

**SOCIAL NETWORK IMPACT ON YOUTH** وسائل التواصل الاجتماعي و تأثيرها على الشباب

Social media is a term used to describe the interaction between groups or individuals in which they produce, share, and sometimes exchange ideas over the internet and in virtual communities. The impact of social networks on young people is significant. Children are growing up surrounded by mobile devices and interactive social networking sites such as Twitter, MySpace, and Facebook, which has made the social media a vital aspect of their life.

The effects of social networking are twofold. On the positive side, social networks can act as invaluable tools for professionals. They achieve this by assisting young professionals to market their skills and seek business opportunities.

Bullies have taken to internet sites such as Twitter and Facebook, where they hide behind the anonymity provided by the internet to carry out their despicable acts. Young people also run the risk of inadvertently disclosing their personal information since on most occasions; they usually neglect to read carefully websites' privacy policies.

It is becoming increasingly clear that social networks have become part of people's lives. Many young people are using their tablet computers and smartphones to check Tweets and status updates from their friends and family. As technology advances, people are pressured to adopt different lifestyles.

**advantages/Disadvantages Of Fast Food Short Essay** الطعام السريع

There are many reasons that many people love to eat fast food. It is fast and easy to eat food which makes us satisfy. But, recently, We have heard that fast food is harmful food for human. There are too many researches about disadvantage of fast food. I think that fast food has more harmful properties than benefit ones.

There are some reasons why fast food is a harmful one. First of all, Fast food is fried by oil. For example, When it was fried, Chemical reactions occur. By-products of these chemical reactions make us sick or give us bad effect. Especially, Cholesterol is very harmful. Secondly, Raw materials of this food don't have good nutrition for body. To be specific, People know that Ingredient of fast food is innutritious. Children too much eat this food are considered obesity and lifestyle related disease.

On the other hand, There are few advantages of eating fast food. First, If we eat fast food by chance is not harmful. It is convenient to eat fast food. We live in competitive society. Time is gold. Therefore, We occasionally eat this food to save time. That is not bad. Second, It is delicious to eat fast food. People like to eat delicious food. We have the right that we can eat food we love. If we don't eat too much fast food, it is okay.

To eat fast food has advantages and disadvantages for us. But, I think that fast food has more disadvantages than advantages for these reasons.

#### Importance of Education اهمية التعليم

Better education is very necessary for all to go ahead in the life and get success. It develops confidence and helps building personality of a person. School education plays a great role in everyone's life.

The whole education has been divided into three divisions such as the primary education, secondary education and Higher Secondary education. All the divisions of education have their own importance and benefits. Primary education prepares the base which helps throughout the life, secondary education prepares the path for further study and higher secondary education prepares the ultimate path of the future and whole life. Our good or bad education decides that which type of person we would be in the future.

In conclusion , I think life without learning is like walking in the darkness , you can't see where you go .

#### WHAT ARE MY FUTURE PLANS? خطتي المستقبلية

I often wonder about my future as I am about to finish secondary school. The number one question on my mind is which profession should I choose? It is very hard to make any definite choices, because I know they will affect me for the rest of my life. I want a profession that will satisfy me, challenge me, and bring me joy. I believe that a job should be like a hobby. I want to love my work, and know that I am making a difference in this world by helping other people. First of all, I want to finish secondary school. Soon I will take the first important exam of my life - the final graduation exam. I will be tested in four different subjects: the Czech and German languages, biology, and chemistry. After my graduation, I would like to study at the Medical University to become a doctor. Ever since I was a child, I have dreamt of curing people and healing diseases. It takes a long time to study medicine. It is very difficult and requires a tremendous amount of patience and hard work. I hope that I will be able to meet these challenges, and that my dream will come true. Later, I would like to work in a hospital or in private practice.

During my secondary studies, I worked on biology and chemistry projects. The experience from working on these projects has given me insight into science that far exceeds what I could have learned at school. In addition, I also developed my patience and diligence, and gained valuable experience when I gave public speeches about our research. This opportunity will be a great advantage for my future studies.

During the last few summer vacations, I worked as an assistant nurse at a hospital. I believe that real life experience with patients, medicine, doctors, and nurses is the best start for a future medical student.

I cannot really imagine having a family yet, but I am 18 years old, so I have to start thinking about it

I am personally interested in becoming a doctor, however, there are many different career opportunities. You can work in manufacturing, service, agriculture or business. Everyone has to decide which path is best for him or herself, once they finish elementary school. One option is to continue secondary school. The second option is to choose another branch of the educational system. It is very important to consider your interests when you choose your future profession. Everyone would like to be good at what they choose.
