ملاحظة: تحتوي هذه السلسلة على 3 امتحانات (مهمه) وشاملة المادة

It's normal to feel a bit sad from time to time .However, studies show that negative emotions can harm the body . Anger can also have harmful effects on health . When you see red , your blood pressure is raised and you can suffer from headaches, sleep problems and digestive problems . However, what about positive feelings and attitudes ?Until recently , scientists had not investigated whether there is a link between positive feelings and good health .

Then , in a study that had followed more than 6,000 men and women aged 25 to 74 for 20 years , researchers found that positivity reduced the risk of heart disease . Other factors influencing health included a supportive network of family and friends , and an optimistic outlook on life .

The research showed that children who were more able to stay focused on a task , and who had a more positive attitude to life at age seven , were usually in better health 30 years later .

The study has been controversial . Some health professionals believe that bad lifestyle choices , for example smoking or lack of exercise , are the reason of heart diseases and other illnesses, and not an individual's attitude . The researchers, while agreeing, raise the question : why are people making bad lifestyles decisions ? Do more optimistic people make better and healthier lifestyle choices ?

The researchers appreciate that not everyone's personal circumstances and environment make it possible to live without worry . However , they believe that if we teach children to develop positive thinking, and to "bounce back" after a setback, these qualities will improve their overall health in the future .

1. What does the underlined word ( **bounce back** ) mean ?
2. Find a word which means ( **a problem that stops progress** )
3. Find a word which means ( **cast doubt on something** )
4. Replace the underlined words ( **feel a bit sad** ) with the colour idiom which has the similar meaning .
5. There are many possible effects of anger on health . Write down two of these effects .
6. The researchers found that teaching children some qualities will improve their overall health in the future . Write down two of these qualities .
7. The article mentions many examples of bad lifestyle choices . Write down two of these bad choices .
8. The study that had followed more than 6,000 men and women has many findings . Write down two of these findings .
9. According to a study , one ( you ) can judge what a child's health will be from doing or having two attitudes ( behaviors ) .Write down them .

10. Many factors reduce the risk of heart disease . Write down two of these factors .
11. Quote the sentence which shows that when a person gets angry , he or she may have a stomachache
12. Quote the sentence which shows that up to now there is no evidence if there is a relationship (connection ) between good health and positivity .
13. Quote the sentence which shows that the study caused a lot of disagreement and discussion .
14. Suggest three strategies to manage anger .
15. Suggest three individual attitudes that cause heart diseases and other illnesses .
16. Eating in Fast Food restaurants is unhealthy lifestyle . Suggest three reasons that make people take unhealthy lifestyle decisions and eat in such restaurants .

**Question Two : Choose the suitable item from those given in the box to complete each of the following sentences .**

textiles , ground-breaking , heritage , negative effects , sceptical, fertile, acupuncture

- 1 .Scholars and philosophers in the Islamic world made ..... advancements in many different areas .

1. not been reading
  2. will have graduated
  3. will be packing
  4. are sold

السؤال الخامس :

- A:
1. Collection
  2. creative
  3. traditionally
  4. successfully

- B:
1. opposition
  2. personification

السؤال السادس :

المتن

1. Gallery
2. sculptures
3. installations
4. textiles
5. ceramics
6. exhibition
7. Contemporary

السؤال السابع

1. The Collection
2. In 2013

السؤال الثامن

1. the most
2. it held
3. the Middle East

أعني لدى الزدهار ولطيفة  
الفتاحي القفوة والفتح  
الاستاذة فراس أبو حرم

الامتحان النهائي 2017 - الأستاذ: فراس أبو كرم ( 0799522160 )

Adnan , a professional craftsman, is at work in his studio. With the oven at 1400 degrees centigrade, 20 hours a day, a glass-making studio isn't the most comfortable place to be. For Adnan, however, this is more than just a job. 'My family has been blowing glass for around 700 years,' he says. 'My father learnt the craft from his father, and he taught it to me when I was a child.'

Adnan is passionate about this ancient craft, and regularly gives demonstrations and workshops to teach young people the skills of glassblowing. He strongly believes that unless we interest more young people in learning the craft, nobody will know how to make hand-blown glass in the future. 'these days, young people don't always want to follow their parents' professions, and, added to that, glassblowing isn't an easy job. It has to be an obsession, as it is for me !'

Adnan still uses the technique that was first developed by the Phoenicians some 2000 years ago. First, he pushes a thin metal blowpipe into the boiling hot furnace. Secondly, he lifts out the liquid sand and lays it on a metal plate. After that, he blows the red-hot glass until it becomes more flexible. Then he pulls and bends the glass into shape. He has to work extremely quickly because the liquid sand is already solidifying into glass. Adnan is making a delicate swan .

'The sand gives us transparent, or "white", glass,' Adnan explains. 'We get this beautiful dark, cobalt blue by adding the metal cobalt to the melted glass. Then, this blue becomes a lighter, sea-green turquoise after adding copper. Finally we decorate the glass by hand.'

'These days we recycle broken glass . We also use commercially produced colours instead of using natural ingredients as in the past. Apart from that, nothing else about this craft has changed through the centuries. You can't use a machine to do this work,' he says.

- the animal which
1. Quote the sentence which shows the object Adnan is making now .
  2. Quote the sentence which shows the way used by glassmakers to decorate glass .
  3. What does the underlined pronoun ( it ) refer to ?
  4. Find a word which means ( acts of showing how to do something ) .
  5. Two changes happened to the craft of glassmaking . Write down them .
  6. More young people are not interested in learning the craft of glassblowing for many reasons . Write down two of these reasons .
  7. Some say traditional crafts have no place in today's society . Think of this statement , and in two sentences , write your point of view .
  8. Mention three uses of glass in our daily life .
  9. Suggest three ways to preserve traditional crafts from disappearance .

Question Two: A: Choose the suitable item from those given in the box

committed ,negative effects , fertile , prosthetic, bionic , cross ,paediatrician

1. Before long , it is likely that all prosthetics will be ..... <sup>إلكترونية bionic</sup> .....
2. I recite some verses from the Holy Quran whenever I feel .....
3. Scientists have successfully invented a .....hand with a sense of touch .

والطبيب، إنني أريد إسمه (سقفه)  
والتي، 2، لبلدي

٣

الأستاذ: فراس أبو كرم ( ٠٧٩٩٥٢٢١٦٠ )

Most doctors used to be sceptical about the validity of homoeopathy, acupuncture and other forms of complementary medicine. If patients wanted to receive this kind of non - conventional treatment, **they** used to have to consult a private practitioner **who** was likely not to have a medical degree. However, in recent years, the perception of this type of treatment has changed. These days, many family doctors study complementary medicine alongside conventional treatments, and many complementary medicine consultants also have medical degrees .

Whereas critics used to say that there was no scientific evidence that nonconventional treatments actually worked, now it is more common for medical experts to recognise that conventional medicine may not always be the only way to treat an ailment.

At a surgery in London, 70 percent of patients **who** were offered the choice between a herbal or a conventional medicine for common complaints such as insomnia, arthritis and migraines chose the herbal remedy. Fifty percent of patients then said that the treatment helped. One doctor said, "**I** now consider homoeopathy to be a viable option for many different conditions, including anxiety, depression and certain allergies. **It** provides another option when conventional medicine does not address the problem adequately."

However, complementary medicine cannot be used for all medical treatments. **It** can never substitute for immunisations as **it** will not produce the antibodies needed to protect against childhood diseases. **It** also cannot be used to protect against malaria.

One doctor said, "I will always turn to conventional medical treatment first to ensure that no underlying condition is missed. However, the idea of complementary treatments is no longer an alien concept. In my opinion, **it** should work alongside modern medicine, and not against **it**."

1. The article suggests that critics' perception of complementary medicine has changed over time . Write down two examples which show this .
2. Herbal remedy is good at alleviating or curing certain medical conditions . Write down two of these medical conditions .
3. Complementary medicine has many forms . Write down two of these forms .
4. Quote the sentence which shows that doctors were not convinced of the ability of complementary medicine to treat illnesses .
5. Quote the sentence which shows that complementary medicine cannot cure the disease spread and transmitted by mosquitoes .
6. Find a word which means ( **effective and able to be successful** )
7. Find a word which means ( **something that is or may be chosen** )
8. Find a word which means ( **having been used for a long time** )

ص ١

الأستاذ: فراس أبو كرم ( ٠٧٩٩٥٢٢١٦٠ )

9. One of the doctors said that he will always turn to conventional medical treatment to ensure that underlying condition is missed . Suggest three underlying conditions that complementary medicine cannot identify .
10. One doctor said that the idea of complementary treatments is not an alien concept . Think of this statement , and in two sentences , write your point of view

Question TWO :

Medical trials , decline , cope with , scales , ground-breaking , risk , filters , bounce back , irrigate , connect to , reputation , prosthetic
