DATE: - Saturday 9th of January 2016

TIME: 1 HOUR AND A HALF

(2) للمتقدمين لجميع الفروع

ملحوظات :- (1) اجب عن جميع أسئلة هذه الورقة.

الأكاديمية. (3) عدد الاسئلة: (5)، وعدد الصفحات: (4).

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow it. Your answer should be based on the text.

Ten-year-old Adeeb al-Balooshi, from Dubai, is going to travel to seven countries on a tour which has been organised and funded by Sheikh Hamdan bin Mohammad, Crown Prince of Dubai. The boy caught Sheikh Hamdan's attention with his invention – a prosthetic limb for his father. The Sheikh has taken a special interest in the boy, and hopes the tour that he is sponsoring for Adeeb will give the young inventor more self-confidence and inspire other young Emirati inventors.

Adeeb got the idea for a special kind of prosthetic leg while he was at the beach with his family. His father, who wears an artificial leg, could not swim in the sea as he could not risk getting his leg wet. This inspired Adeeb to invent a waterproof prosthetic leg.

Adeeb is going to visit the USA, France, the UK, Ireland, Belgium, Italy and Germany, where he will be staying with relatives. However, while he is in Germany, Adeeb will not be spending all his time sightseeing. He will be working with a specialist doctor to build the appendage. He will also be catching a course on prosthetics and learning about different kinds of medical apparatus.

Adeeb has invented several other devices, including a tiny cleaning robot and a heart monitor, which is attached to a car seat belt. In the case of an emergency, rescue services and the driver's family will be automatically connected with the driver through this special checking device. He has also invented a fireproof helmet. This special equipment, which has a built-in camera system, will help rescue workers in emergencies. It is for these reasons that Adeeb rightly deserves his reputation as one of the youngest inventors in the world.

Question Number One:- (20 points)

A.

- 1- The article mentions different devices that Adeeb invented. Write down two of these devices. (4 points)
- 2- Sheikh Hamdan bin Mohammad offered Adeeb a world tour for two causes. Write these two causes. (2 points)

-In addition, there are other **advantages of megaprojects** like adding benefit the budget and supporting the factories.

C. FREE WRITING: (7 points)

1-

The technology and people in the future

Life in the future will never be as life these days. Many of the aspects of our daily routine will be completely different and others will disappear in the coming future. Hospitals will have robots, which can test patients and prescribe the appropriate medicine for patients while they are at home. Moreover, robots could participate in making medical surgeries all over the world.

At school, weather conditions will never be a problem anymore because students can attend the class while they are at home or even if they are at hospitals. Finally, at home, parents will be able to have an eye on their children while parents are away from home. This will make life easier.

2- الموضوع الثاني يطلب منك كتابة مقالة حول التطورات المستقبلية بنهاية عام 2100. راجع جميع المواضيع المكتوبة في الملخص او في نهاية الدوسية ومن خلال حفظك لبعض المصطلحات في النصوص.

وفقكم الله وتمم تعبك بالنجاح
أخوكم
علي موفق الدقاسمة

- ملاحظات:- قطعة المستوى الرابع من كتاب الطالب (student's book) طبعا هذا ليس بشرط.
- الاشتقاق على النمط القديم أي ان تشتق بين قوسين مباشرة
- لا يوجد سؤال على الـ (function)

سؤال تصحيح الاخطاء (خطأ قواعدي) (خطأ بعلامات الترقيم) (خطأين بالإملاء)... لذلك ارفق اليك بعض الفقرات تتضمن هذه الاخطاء مع حلولها مباشرة في الصفحة الاخيرة.

It also seems very likely that robots will be carrying out surgery, too. There are a few surgical operations that require a lot of detailed work, For example, in cancer cases it is vitally important to remove all the cancer cells, but leave the healthy cells in place. In some operations, scanners are used to locate these cancerous cells, and these locations are sent directly to the robot surgeon.

1- **surgical** 2- work. For example 3- **scanners** 4- **sent**

It was the time when Arab and Islamic rulers established one of the largest empires in history, During this period, artists, engineers, scholars, poets, philosophers, geographers and traders in the Islamic world made groundbreaking advancements in many different areas, from agriculture and industry to philosophy, science and technology, literature, music and the arts.

1- It **was** the 2- history. During 3- **philosophers** 4- **ground**

The school is set up in 1922 CE, and there were four main aims: firstly, to train Jordanian craftspeople to make and restore mosaics, secondly, to preserve the mosaic floors all over Jordan, thirdly, to provide new work opportunities for artists, and lastly, to make people aware of the importance of mosaics as part of Jordan's cultural heritage.

1 school **was** set 2- firstly, to train 3- **mosaics** 4- **heritage**
