FIRST SEMESTER/Level 3

DATE:10/1/2017

الدورة الشتوية/المستوى الثالث/النموذج الثاني

ملحوظات ١- أجب عن أسئلة هذه الورقة جميعها والتي عددها (٥) وصفحاتها (٤)

Read the following article carefully , and then answer all the questions that follow. Your answer should be based on the article.

This article discussed Complementary medicine which is called non-conventional treatment. These days , many family doctors study complementary medicine alongside conventional treatments, and many complementary medicine consultants also have medical degrees.

Whereas critics used to say that there was no scientific evidence that non-conventional treatments actually worked , now it is more common for medical experts to recognize that conventional medicine may not always be the only way to treat an ailment. At a surgery in London , 70 % of patients who were offered the choice between a herbal or a conventional medicine for common complaints such as insomnia , arthritis and migraines chose the herbal remedy . Fifty % of patients then said that the treatment helped . One doctor said , "I now consider homoeopathy to be a viable option for many different conditions , including anxiety , depression and certain allergies. It provides another option when conventional medicine does not address the problem adequately."

However , complementary medicine cannot be used for all medicine treatment . It can never substitute for immunizations as it will not produce the antibodies needed to protect against childhood diseases. It also cannot be used to protect against malaria . One doctor said "I will turn to conventional medical treatment first to ensure that no underlying condition is missed . However , the idea of complementary treatments is no longer an alien concept . In my opinion , it should work alongside modern medicine, and not against it."

Question number one (20 points)

A.1. The new perception of complementary medicine shows that this non-conventional treatment may help to treat many conditions .Write down them.

(4 points)
