It is said that the best way to acquire a language is to immerse yourself in it , and that's what we offer at Extreme English: total immersion .

You will stay in one of our beautiful apartments .You'll hear and speak English all day long. You can either join a small group of other students of a similar level, or request a 'tailor-made' course . For example, you may require a course in academic English to prepare you for undergraduate or postgraduate studies , or a vocational course to help you with your career . Either way, you will live and work together as a family .

In the mornings, after breakfast, one or more of our trained and experienced teachers will arrive . You will have three hours of intensive tuition . Then, after enjoying lunch together around the table, you'll visit local places of interest , go shopping, take part in sports, etc. In the evenings, there will be a choice of cultural activities, for example the theatre or a concert , or you may prefer to relax at home and chat (in English, naturally!) . Whatever you do, your teachers will be with you, acting as guides, tutors and friends.

Some people just come for a week, and they are usually amazed by how much progress they make in such a short time. Others come for two three, even four weeks. It's up to you . You can be sure of one thing – we'll do our very best to give you a first-class experience and send you home thinking and dreaming in English!

1. Students have a lot of options on these courses . However , there are two decisions they have to make before they arrive . Write down these two decisions .
2. Some students ask for a custom-made course in academic English for two purposes ( reasons ) . Write down them .
3. Quote the sentence which shows the part of the day which will be the most formal .
4. Replace the underlined word with the suitable collocation that have a similar meaning .
5. Find a word which means ( made to fit exactly ) .
6. What does the underlined word ( it ) refer to ?
7. Suggest three possible challenges ( problems ) you might face if you joined a course like that .
8. Joining a course like that has many positive aspects . Think of this statement , and in two sentences , write your point of view .

Studio schools are pioneering schools which receive funding as well as support from private businesses, and which seek to encourage young people to undertake a less conventional form of a secondary education . These schools often specialise in one specific area , whilst understanding that the same broad range of skills and qualifications should be made available to all young people .

One such school has recently opened to educate fourteen-to eighteen -year-olds who have a special interest in working in the space industry . Students follow a tailor-made curriculum at the school , including subjects such as Astronomy and Astrophysics .

lessons are a mixture of small-class tutorials , with projects supervised by leading companies in both the space and technology industries .

Prominent scientists and engineers are brought in as guest lecturers . They give lectures to students aiming to achieve top grades in their Maths and Science exams . When they leave school , they will be well-placed to take any number of different career paths . "They don't have to become astronauts ! says a spokesperson for the school . " Excellent grades in Science and technology subjects can open many doors and lead to a variety of career opportunities . "
