النص الاول Text One

The earliest form of pizza was invented when soldiers needed food to take with them on long marches. They baked a kind of bread flat on their shields and then covered it with cheese and dates. This early pizza was a convenient, healthy food for people who were constantly on the move. The wheat flour base provided energy in the form of carbohydrates, the cheese gave the soldiers calcium, which kept their bones and teeth healthy, and the dates provided protein, fibre and various vitamins and minerals that are necessary to keep the body healthy. Pizza is also mentioned in the 3rd century BCE, when there was written evidence of a flat round bread that had olive oil, herbs and honey on the top. It was baked on hot stones.

When people explored the remains of Pompeii, Italy, they found evidence of a flat flour cake that was baked and widely eaten there at that time. There was also evidence of the first pizza restaurants in Pompeii in the 16th century CE. Visitors can see the pizza ovens in the ruins, even today. In 1522 CE, travellers returning to Europe from Peru brought back tomatoes with them. The people of Naples added the new tomatoes to their bread, which consisted of flour, oil, salt and yeast, and created the first simple pizza.

In 1889 CE, the King of Italy and his wife, Queen Margherita, were on holiday in Naples in Italy. They asked a famous pizza chef to come and cook for them. He prepared three kinds of pizza. The Queen's favourite one was the one that had been made with a white cheese called mozzarella, a green herb called basil, and ripe, red tomatoes. These were exactly the colours of the Italian flag. The chef named this pizza in honour of the Queen: the Margherita.

In the late 19th century CE, pizza became a popular snack that was sold from stalls on the streets of Naples. When many Italians emigrated to America in the 19th century CE, they took the recipe for pizza with them. Its popularity there spread all over the world, and today it is a favourite dish in almost every country.

### النص الثاني = Text two

In Petra, Jordan, there lie the remains of a majestic city carved out of the desert rock. This city was the main area inhabited by the Nabateans, who migrated gradually from Arabia during the 6th century BCE. Originally, they were a nomadic people who chose to settle in various places, such as southern Jordan, the Naqab Desert and northern Arabia.

There is little known about the lifestyle of the Nabateans, except that **they** were important traders in the ancient world. They might have traded goods such as spices, gold and animals with civilisations such as China, India and Rome because of their convenient position at a commercial crossroads in the world.

Many Roman writers wrote about what the Nabatean culture must have been like, but no one knows for sure. However, they agree that the language of the Nabateans could have been a mixture of Arabic and Aramaic. These Roman writers also say that the Nabateans were ruled by a royal family, and that, unlike many cultures in the ancient world, the Nabatean society might not have used any slaves, in addition to that, the Nabateans must have been expert engineers because they managed to build complicated water conservation systems in the desert terrain.

Despite archaeologists' best efforts; there is a limit to what they can tell us about these fascinating people who lived in Jordan such a long time ago. Although it is still difficult to know much, they can't have been illiterate because there are some inscriptions that remain. However, sadly for us, most of the things the Nabateans made and owned have been too easily destroyed by time or lost in the desert.

### Questions:

Communication, the sharing of information, ideas and thoughts, can take many forms. Before the development of writing, people communicated via smoke signals, cave paintings and drumbeats. The first systems of writing used pictures to convey meaning. Gradually, as language developed, alphabets evolved, using letters and symbols which represented sounds. These sounds in turn made up words.

The invention of the printing press in the 15<sup>th</sup> century led to the first forms of mass media: newspapers and magazines. Until then, it hadn't been possible to reach thousands of readers at the same time. However, only sighted people could access these media.

This all changed in 1821 CE. It happened when an officer in the military in France was visiting the Royal Institute of the Blind in Paris. He wanted to demonstrate to the students a system of dots he had invented. These dots allowed soldiers to communicate without speaking. This method of communication caught the attention of Louis Braille, a young man who was studying at the Institute.

After many years of work, Louis Braille had improved and completed the system of raised dots, which became known as Braille. The characters consist of six tactile dots that can form 64 combinations, spelling out letters, numbers and symbols.

By 1868 CE, 16 years after Louis Braille's death, blind people all over the world were using Braille every day. It has also been 35 adapted to scripts in different languages, it enables blind people to read books, maps and labels, and even to press buttons in a lift. A wide range of national daily newspapers are available in Braille, too. Nowadays, screen-reading software means that the text on a computer screen can be heard aloud. Digital talking books that simultaneously generate output in Braille are also available.

The Minoan civilisation ruled the Mediterranean island of Crete for 1,500 years, until **it** was destroyed in 1450 BCE. The Minoans built the first paved roads in Europe and introduced running water. **They** had a powerful navy, **which** might have been why **they** were such as strong civilisation for so long. However, at Knossos in Crete, scientists have been examining deposits of ash, marine species, cattle bones and seashells in the soil. How could these deposits have got **there**? The only answer is that **they** must have been deposited in Crete by a tsunami.

Experts have now pieced together a possible explanation of what might have happened. **They** believe that several tsunamis might have hit the northern and eastern shores of the island, every thirty minutes due to the eruption of the volcano on Santorini. It must have been a terrifying experience for the Minoans living **there**!

**B- Literature spot: ( 2 points)**

**Read the following extract from Hard Times carefully, then answer the question that follows:**

" Mr. Bounderby is not happy that a circus girl will share Mr. Gradgrind's home with his daughter, Louisa and his son, Tom. Mr. Bounderby thinks he will marry Louisa one day, and believes that a circus girl could be a bad influence on her. "Louisa should only know facts, but Sissy will have imaginative ideas from the circus," he complains."

**1- Why does Mr. Bounderby complain that Sissy has "imaginative ideas" ?**

لماذا السيد باوندرباي يشكو بأن سيسي لديها " أفكاراً خيالية"؟

He believes that only facts are important. He thinks that someone with imaginative ideas like Sissy will be a bad influence on Louisa.

**Read the following extract from Hard Times carefully, then answer the question that follows:**

"Life is increasingly difficult for the people working in Coketown's factories. The workers decide to call a strike to protest about their terrible conditions. Stephen Blackpool refuses to join the strike, believing it will make their conditions worse. Because of this, the other strikers refuse to talk to him. When Mr. Bounderby hears about the situation, he asks Stephen to spy on the factory workers. Stephen refuses to help Mr. Bounderby, who is so angry that he fires him."

**2- Why do the factory workers decide to strike?**

لماذا قرر عمال المصنع الإضراب؟

They want to protest about the terrible conditions in the factory.

**Read the following extract from Hard Times carefully, then answer the question that follows:**

"The next morning, Mr. Bounderby finds out that his bank has been robbed. People report that they had seen Stephen Blackpool waiting outside the bank at night and everyone assumes he is the robber. Louisa, however, suspects her brother Tom, who is now seriously in debt."

**3- Why does Louisa suspect that her brother robbed the bank?**

لماذا شكّت لويزا بأن أخوها قد سرق البنك؟

Because he is seriously in debt.

**Read the following extract from Hard Times carefully, then answer the question that follows:**

"Sissy spends time with Rachael each day to comfort her. One evening, as they are walking past Mr. Bounderby's house, they are surprised to see one of Mr. Bounderby's servants pushing an old woman into his house. "This old woman won't say why she was hiding near the bank. I'm sure she helped with the robbery!" he cries.

**4- Why does a servant think Mrs. Pegler took part in the robbery?**

لماذا يعتقد الخادم بأن السيد بيجلر قد شاركت بالسرقة؟

-Mrs. Pegler visits the bank regularly to watch her son, but she does not want to be seen by him. For this reason, she probably seems suspicious.

- she was hiding near the bank كانت تختبئ بجانب البنك

**Read the following extract from Hard Times carefully, then answer the question that follows:**

"Mr. Gradgrind's ideas are shared by a rich man called Mr. Bounderby, who owns many of Coketown's factories as well as the local bank. Mr. Bounderby is proud of his successful life because, he tells everyone, "I grew up with nothing, without even a mother to help me".

**5- Why do you think Mr. Bounderby pretended that he grew up with nothing?**

برأيك، لماذا تعتقد أن السيد باوندرباي زعم بأنه نشأ من العدم " من لا شيء"؟

He probably thought people would be impressed that he had become so successful. He did not want them to know that he had refused to see his mother again when he became rich.

The sun is considered as one of the most important renewable sources of energy. It is sustainable and not finite. Using the energy of the sun has many advantages because it is free and it lasts forever. It reduces our dependence on the products of oil and makes the energy we use in our life safe and reliable. However, generating energy from the sun cost much money and it needs expert engineers in the field of energy to generate it safely. I think, the energy of the sun is the best solution for the energy problems in the world.

تعتبر الشمس واحدة من أهم مصادر الطاقة المتجددة. انها مستدامة وليست محدودة. لاستخدام الطاقة من الشمس العديد من المزايا فهي مجانية كما انها تستمر إلى الأبد. فهي تقلل من اعتمادنا على منتجات النفط وتجعل الطاقة التي نستخدمها في حياتنا آمنة وموثوق بها. ومع ذلك، فان توليد الطاقة من الشمس يكلف الكثير من المال ويحتاج الى مهندسين خبراء في مجال الطاقة ليتم توليدها بأمان. أعتقد، وتعتبر الطاقة الشمسية أفضل حل لمشاكل الطاقة في العالم.

Crude oil is currently the most important source of energy in the world. It is like the air to our life and without crude oil, life will never continue easily. All the sectors of our life depend on crude oil, like transportation as all the vehicle need oil to work and electricity because it depends directly on the products of oil to be generated. Unfortunately, Crude oil is a finite source of energy, so that we have to look for renewable sources of energy to let life continue and to live safe and comfortable.

النفط الخام حاليا هو أهم مصدر للطاقة في العالم. هو مثل الهواء لحياتنا وبدون النفط الخام، فان الحياة لا تستمر بسهولة. تعتمد جميع قطاعات حياتنا على النفط الخام، مثل وسائل النقل فجميع المركبات تحتاج النفط لكي تعمل كما ان الكهرباء تعتمد بشكل مباشر على منتجات النفط حتى يتم توليدها. لسوء الحظ، النفط الخام هو مصدر محدود للطاقة، لذلك يجب أن نبحث عن مصادر للطاقة المتجددة من أجل أن تستمر الحياة ولكي نعيش آمنين ومرتاحين.

Reading book is one of my favourite hobbies. Reading books is beneficial to our minds as it refreshes our ability of thinking and it makes us educated. I am interested in reading books about science as they keep me in touch with the recent inventions in the world of technology. Moreover, they enable me to understand the world from a scientific point of view. I feel confident that the information I have will make me a polymath in the field of science and technology and one day I will be able to discover something beneficial for the humanity.

I am fond of reading novels and Oliver Twist by Charls Dickins is my favourite novel. I read it many times. Oliver Twist teaches the reader many lessons about humanity and how we should treat others. Oliver, despite his poverty, is a hero. Dickins could draw an interesting image of the treatment that Oliver had at his childhood. This image should teach human beings how they should feel towards poor people. We should respect each other and we should realise that poverty is not a sin.

أنا مغرم بقراءة الروايات وأوليفر تويست التي كتبها تشارلز ديكنز هي روايتي المفضلة. قرأتها مرات عديدة. أوليفر تويست تعلم القارئ دروساً كثيرة عن الإنسانية، وكيف ينبغي لنا أن نتعامل مع الآخرين. أوليفر، رغم فقره، فانه بطل. ولقد تمكن ديكنز من رسم صورة مثيرة للاهتمام للمعاملة التي عاشها أوليفر في طفولته. هذه الصورة يجب أن تعلم البشر كيف يجب أن يشعروا تجاه الفقراء. علينا أن نحترم بعضنا البعض وعلينا أن ندرك أن الفقر ليس خطيئة.

My childhood is the best period I had in my life. I could enjoy every moment of it. I used to play with my friends. We played football in the street using a ball made of cloth. We went swimming in the pools which are made for irrigation. At the age of 12, we started playing chess and going on picnics with the school. Our games were simple but we enjoyed them very much. I wish I could bring those days back one day.

طفولتي هي أفضل فترة في حياتي. تمكنت من ان استمتع كل لحظة منها. اعتدت على اللعب مع أصدقائي. لعبنا كرة القدم في الشارع باستخدام الكرة مصنوعة من القماش. ذهبنا السباحة في المسابح التي خصصت للري. وفي سن ال 12، وبدأنا لعب الشطرنج والذهاب في نزهات مع المدرسة. وكانت العابنا بسيطة ولكننا استمتعنا بها كثيرا. أتمنى أن لتلك الأيام أن تعود في يوم من الأيام.

Life in Jordan is rich with traditions especially in meals. Mansaf is considered as the most famous traditional meal in Jordan. Everyone likes Mansaf. It is a symbol of the hospitality and generosity of the Jordanian people. We produce it in weddings, meetings, parties and in funerals. It consists of rice, yoghurt and lamb meat. There are some additions like the herbs and we usually eat green onion with it. I like Mansaf very much. It is my best dish.

الحياة في الأردن غنية بالتقاليد خاصة في وجبات الطعام. ويعتبر المنسف الوجبة التقليدية الأكثر شهرة في الأردن. الجميع يحب المنسف. فهو رمز للضيافة ولكرم الشعب الأردني. ونحن نقدمه في الأعراس والاجتماعات والحفلات والمآتم. وهو يتألف من الأرز واللبن ومن لحم الضأن. هناك بعض الإضافات مثل الأعشاب ونحن عادة نأكل البصل الأخضر معه. أنا أحب المنسف كثيرا. فهو طبقي المفضل.

Mansaf is a traditional Jordanian dish made of lamb cooked in sharab which is made from jameed and served with rice. It is the national dish of Jordan and it is also common in Palestine. The name of the dish comes from the term "large tray" or "large dish".

The lamb is cooked in a broth made with a fermented then dried yogurt-like product called jameed, and served on a large platter with a layer of flatbread (markook or shrak) topped with rice and then meat, garnished with almonds and pine nuts, and then sauce poured over all.

Mansaf, as historian and anthropologist Yousef Ghawanmeh states in his book The cultural history of Jordan during the Mamluk period 1250–1517, is associated with a traditional Jordanian culture based on an agro-pastoral lifestyle in which meat and yogurt are readily available. Mansaf is served on special occasions such as weddings, births and graduations, or to honor a guest, and on major holidays such as Eid ul-Fitr, Eid ul-Adha, and Jordan's Independence Day.

It is traditionally eaten collectively from a large platter in the Bedouin and rural style, standing around the platter with the left hand behind the back and using the right hand instead of spoons.

المنسف هو الطبق الأردني التقليدي ويتم عمله باللحم المطبوخ في شراب وهو مصنوع من الجميد (المخمرة اللبن المجفف) ويقدم مع الأرز. هو الطبق الوطني في الأردن، وأيضا الشائع في فلسطين. اسم الطبق يأتي من مصطلح "القدر الكبير" أو "الطبق الكبير".

يتم طبخ اللحم الضأن في المرق المصنوع من الجميد واللبن، ويقدم في طبق كبير مع طبقة من الخبز المشروح (خبز الصاج أو الشراك) ويوضع فوقه الأرز ثم اللحم، مزخرف مع اللوز والصنوبر، ثم يسكب اللبن المطبوخ (الشراب) فوقه.

يذكر المؤرخ وعالم الأنثروبولوجيا يوسف غوانمة في كتابه التاريخ الثقافي الأردني خلال العصر المملوكي 1250-1517، بأن المنسف مرتبط مع الثقافة الأردنية التقليدية القائمة على نمط الحياة الزراعية حيث أن اللحوم واللبن متوفرة بسهولة. يتم تقديم المنسف في المناسبات الخاصة مثل حفلات الزفاف، والموايد والتخرج، أو لتكريم الضيف، وعلى الأعياد الكبرى مثل عيد الفطر وعيد الأضحى، وعيد الاستقلال الأردني.

تقليديا، يؤكل المنسف بشكل جماعي في طبق كبير بأسلوب بدوي وريفي، والوقوف حول الطبق مع وضع اليد اليسرى خلف الظهر واستخدام اليد اليمنى بدلا من الملاعق.

## استراحة الطموحين الذين لا يزال قلبهم ينبض بالارادة والعزيمة

• عندما تكون أصغر سناً، تكون قلقاً عما يفكر فيه الناس عنك. و عندما تكبر تدرك أنه لم يكن هناك أحد يفكر فيك على الإطلاق.

• التأجيل هو سارق الوقت و الحياة و النجاح، فاصدق العزيمة كي تقهره.  
 • إن أكبر عائق يمنع النجاح هو الخوف من الفشل والإخفاق : هذه حكمة كثيراً ما يرددها الخطيب الشهير براين تريسي حيث يقول إنهم أجروا إحصائيات في أمريكا فوجدوا أن الناس هناك يخافون من الفشل أكثر من خوفهم من الموت!!!!!!.....الحاجز الأول الذي يجب أن نقضي عليه هو الخوف من الفشل فلنحاول أن نجرب فعل الأشياء التي نخاف فعلها وتجربتها ولنرى النتائج.

• لا يصل الانسان الى حديقة النجاح من دون أن يمر بمحطات التعب والفشل واليأس وصاحب الإرادة القوية لا يطيل الوقوف عند هذه المحطات...

• الطموح بذرة تنمو بماء الاجتهاد و سماء التضحية و الاخلاص لتصير شجرة عظيمة الأغصان عميقة الجذور تعمر مئات الأعوام.

• الطموح أن تنتظر لغد... وأن تأمل لأن تبني اليوم لغد... كيف لا وقد قال الله تعالى " وقل اعملوا فسيرى الله عملكم ورسوله والمؤمنون "

• شخص واحد يؤمن بقدراته و يصبر على تحقيق أهدافه ، أقوى من 99 شخصا لا يملكون سوى الأمانى....

• قد يحوم خيالك حول الفشل والاحباط والضعف ، وقد يصور لك الجمال والطموح والنجاح والمثابرة ، أنت الذي تختار طريق خيالك...

• يستحيل الربح بدون مخاطرة ، و الخبرة بدون مجازفة ، والمكافأة بدون عمل ، كما يستحيل الحياة بدون ولادة....

إذا ما طمحت الى غاية.....لبست المنى ونسيت الحذر

• و من لا يحب صعود الجبال..... يعيش أبد الدهر بين الحفر

• لكي تنجح يجب على رغبتك في النجاح أن تتفوق على خوفك من الفشل.

• الصخور تسد الطريق أمام الضعفاء أما الأقوياء فيستبدون عليها للوصول إلى القمة .

• الأهداف هي أحلام نحولها إلى خطط و خطوات عملية لتحقيقها .

• دائماً ضع صورتك التي تريد ان تكون عليها في عقلك ومخيلتك، وستتحه تدريجياً نحوها

• إذا لم تهزم نفسك، ستهزمك نفسك..... سلم النجاح لا يعاني من الإزدحام في أعلاه .

• صناع الحياة دائماً ما يكون شعارهم حاول و افشل ثم حاول وانجح .

• من ليس له طموح يعيش حياة فارغة لا طعم للسعادة فيها و لا لون للفرح ،،، بلبس ثوب

اليأس و التشاؤم .... فلا معنى للحياة لديه وماهي إلا تضيئة أوقات وقضاء أيام مليئة بالحزن

والاكتئاب .

• هذا عمر بن عبد العزيز خامس الخلفاء الراشدين

يقول معبراً عن طموحه " إن لي نفساً تواقّة ،تمنت الإمارة فنالتها

وتمنت الخلافة فنالتها ،وأنا الآن أتوق

إلى الجنة وأرجو أن أنالها "

مهما كانت تحديات الحياة التي تواجهك .. تذكر دائماً أن تنظر إلى قمة الجبل .. فأنت بهذه الارادة .. تتذكر العظمة وتتنظر إليها . تذكر هذا .. ولا تدع مشكلة ما أو امرأة ما .. مهما بدا لك خطيراً أن يثبط من عزيمتك .. ولا تدع شيئاً ما .. مهما كان .. أن يصرفك عن القمة هذه الفكرة .. فيجب عليك ان تتحلى بالارادة لانها هي الحاسة التي تعمل بها جميع الحواس.

فمن له ارادة له القوة، فمتى توفرت الارادة سهلت الطريقة، فلا تُحقق الاعمال بالتمنيات ، وانما بالارادة نصنع

المعجزات ،فلا مستحيل عند اهل العزيمة ولا مستحيل امام القلب النشط.

كرر عبارات التفاؤل والقدرة على الإنجاز.....أنا قادر على المثابرة ساكون أفضل.. أستطيع الآن أن استمر

بالنجاح .أنا افضل مما سبق أظن لانني اكتشفت انني أقوى .

اريد أن أرى فيكم غدا مشرقاً مليءً بالتفاؤل والأمل وقوة الإرادة

ارجو ان تعدوني

ودتمت أخوتي والبسمة عنوانكم والأمل طريقكم دوما في هذه الحياة

وسامحوني عن كل خطأ مقصود أو غير مقصود تجاهكم

أحوكم وصديقكم في كل مكان وزمان بمشيئة الله
