Prof: The most important thing to remember is that, like Law, to do Dentistry you need to be fully committed to hard work! Expect to be in classes or doing practical work for eight hours a day, five days a week. dentistry students work extremely hard. any more questions.

economics or business Studies is very useful subjects for a degree in business management, and so is ICT. other good choices are history, and of course any foreign language will help you a lot in business one day. however I'm sorry to hear you're not doing well in maths, because although it's not vitally important to be good at it, it is certainly going to help you with Economics, Accounting and finance when you're at university. If you are unable to use Maths as needed, you might not achieve everything you want to in business. maybe you should get some outside tuition for Maths.
