نماذج امتحان تدريبية انجليزي مستوى ثالث الفصل الاول (نموذج<u>3</u>) – رائد الناطور 079/6105053

A. Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text:

Most doctors used to be sceptical about the validity of homoeopathy, acupuncture and other forms of complementary medicine. However, in recent years, the perception of this type of treatment has changed. These days, many family doctors study complementary medicine alongside conventional treatments, and many complementary medicine consultants also have medical degrees.

At a surgery in London, 70 per cent of patients who were offered the choice between a herbal or a conventional medicine for common complaints such as insomnia, arthritis and migraines chose the herbal remedy. Fifty per cent of patients then said that the treatment helped. One doctor said, "I now consider homoeopathy to be a viable option for many different conditions including anxiety, depression and certain allergies. It provides another option when conventional medicine does not address the problem adequately".

However, complementary medicine cannot be used for all medical treatments. It can never substitute for immunisations as it will not produce the antibodies needed to protect against childhood diseases. It also cannot be used to protect against malaria.

One doctor said, I will always turn to conventional medical treatment first to ensure that no underlying condition is missed. However, the idea of complementary treatments is no longer an alien concept. In \underline{my} opinion, it should work alongside modern medicine, and not against it.

Question Number One:

1. The writer states that conventional medicine can work for three medical treatments that non-conventional can't do. Write down these three medical treatments.

2. Quote the sentence which shows that the conception of complementary medicine has been changed by the time.

3. The writer mentions three forms of complementary medicine. Write down two of them.

4. What does the underlined word "my" refer to?

5. Find a word in the text which means "inconvenience".

6. The majority of patients who have been conducting to the study chose herbal medicine to treat for variety of diseases. Write down two of these diseases.

7. Quote the sentence which shows that 50% per cent of patients said that herbal remedy helped them to treat common complaints.

8. Non – conventional medicine cannot work as a replacement for some treatments. Write down two of these treatments.

9. 'Complementary treatments should work alongside modern medicine, not against it'. Explain this statement, and in two sentences, write down your point of view.

10. People's conceptions of complementary medicine has changed over time. Suggest three reasons for this phenomena.
