<p>Read the following text carefully then answer the question that follows:-</p> <p>The earlier you start in the morning, the more beneficial your revision will be, because that's when you feel most awake and your memory is at its best. I'd also recommend studying for 30-minute periods, and then taking a break. It's been proved that concentration starts to decrease to after half an hour, so frequent breaks will help the brain recover and concentration to return.</p> <p>Revision will be more beneficial when done early in the morning for two reasons. What are these two reasons?</p>	مقدمة الفقرة (القطعة، صورة...)

<p>Read the following text carefully then answer the question that follows:-</p> <p>Speaking a foreign language, it is claimed, improves the functionality of your brain in several different ways. Learning new vocabulary and grammar rules provides the brain with beneficial ‘exercise’, which improves memory. As well as exercising the brain, it is thought that learning a new language also presents the brain with unique challenges. These include recognising different language systems and ways to communicate within these systems.</p> <p>The writer states that learning new language presents the brain with two challenges.
