٣- عدد الأسئلة: (٥)، وعدد الصفحات (٤).

Read the following online article carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the article.

Do you know if it's too late to start revising now?

No, it's never too late to start revising! The first thing I would do is to draw up a revision timetable.

Do you mind telling me how I should draw up a timetable?

Look at all the subjects you have to do, and work out when you are going to work on each one. It's a good idea to change the order of the subjects in your timetable for each day. Try doing a little English, followed by some Maths, then Biology, and so on. This way, by changing the focus of your revision, you keep your mind fresh.

Do you know whether it's best to get up early, or to revise late at night?

The earlier you start in the morning, the more beneficial your revision will be, because that's when you feel most awake and your memory is at its best. I'd also recommend studying for 30-minute periods, and then taking a break. It's been proved that concentration starts to decrease after half an hour, so frequent breaks will help the brain to recover and concentration to return.
