THE HASHEMITE KINGDOM OF JORDAN-MINISTRY OF EDUCATION
GENERAL SECONDARY CERTIFICATE EXAMINATION-2017
GENERAL ENGLISH

الدورة الصيفية / المستوى الثاني / الكتاب الجديد

(وثيقة محمية / محدود)

DATE: SATURDAY 15th of July, 2017

TIME: 1 HOUR AND A HALF

ملحوظات: ١- أجب عن أسئلة هذه الورقة جميعها. ٢- للمتقدمين في الفروع المهنية. ٣- عدد الأسئلة: (٥)، وعدد الصفحات (٤).

Read the following conversation carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the conversation.

Teacher: our project today is to find out about renewable energy resources. That means resources which are continually replaced and will not run out any time soon. Ramzi, what have you chosen as an example of a renewable resource?

Ramzi: The sun is a renewable resource of energy. A lot of living things depend on its energy for heat and light. This energy can also be captured and used to power things. For example, if you have a solar calculator, it contains a solar cell, which uses sunlight to power the calculator.

Teacher: What about you, Nadia? What did you find out?

Nadia: In windy places, wind energy can be used to make electricity, using wind turbines. These turbines are found in "wind farms". They have blades that are attached to a generator at the centre. The wind spins the blades and the generator runs. This makes electricity. However, wind turbines can't work if there is no wind, and sometimes the wind speed is so high it damages them.

Teacher: Ibrahim, what's your example of a renewable resource?

Ibrahim: It's biomass. Biomass is plant material and animal waste that is used as fuel. For example, wood is a biomass fuel as long as we continue to plant new trees to replace those we cut down. Biomass can be used to provide heat and also to make electricity.

Question Number One (23 points)

- A. 1. There are three renewable energy resources that are mentioned in the text. Write down two of them. (4 points)
2. Which is the only form of renewable energy that is a fuel? (3 points)
