DATE: - Saturday 4th July, 2020

TIME: 1:30 HOURS

ملحوظات :- (1) اجب عن جميع أسئلة هذه الورقة. (2) للمتقدمين لجميع الفروع الأكاديمية. (3) عدد الاسئلة: (5)، وعدد الصفحات: (4).

Section One:-

In England, almost 50% of school leavers go on to higher education. The figure has not always been as high as this. Twenty years ago, it was closer to 30%, and thirty years before that, it was only about 5%. Another huge change has been financial.

A recent survey of 17,000 students revealed that only 7% wanted to stay at home while they studied for their degree. Most of them say that they want to move to the university of their choice, rather than the nearest one. Another strong motive is the desire to live in a new culture. Where do these students live? Many have rooms in halls of residence, especially in their first year; others rent flats or houses. A lucky minority live in property that their parents have bought for them.

Jordan has a high standard of education. For higher education, students enter university, either for academic or vocational courses. Students can attend of public universities and private universities. These are undergraduates studying for a first degree, or postgraduates studying for a Master's degree, a PhD or a higher diploma.

The three universities with the most undergraduates are the University of Jordan in Amman, Yarmouk University in Irbid and Al Balqa Applied University in Salt. These are all public universities. It is also possible in some Jordanian universities to enroll onto online distance learning programmes.

GENERAL SECONDERY CERTIFICATE EXAMINATION- 2020
(خطة 2019) GENERAL ENGLISH

DATE: - Monday 6th July/2020

TIME: 1:30 HOURS

ملحوظات :- (1) اجب عن جميع أسئلة هذه الورقة. (2) للمتقدمين لجميع الفروع الأكاديمية. (3) عدد الاسئلة: (5)، وعدد الصفحات: (4).

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow it. Your answer should be based on the text.

Health in Jordan

Health conditions in Jordan are among the best in the Middle East. And there are many factors that have made our community healthier, for example, advances in education, economic conditions, sanitation, clean water, diet and housing.

As a result of careful planning, the number of healthcare services has been increasing rapidly over the past years. More than 800 different kinds of healthcare centres have been built, as well as 188 dental clinics. In 2012 CE, 98 per cent of Jordanian children were fully immunised. Thanks to immunisation teams that had been working towards this goal for several years.

Although the country has been focusing mainly on improving its primary healthcare facilities, it has not neglected its advanced medical facilities. The reputation of Jordanian doctors has spread in the region, and now many more patients' come to Jordan for open heart surgery. In Jordan, the open heart surgery programme started in 1970 CE in Amman.

The King Hussein Cancer Center

The King Hussein Cancer Center (KHCC) is Jordan's only comprehensive cancer treatment centre. It treats both adult and paediatric patients. As the population of the country increases, more and more families will rely on the hospital for cancer treatment. Patients come not only from Jordan but also from other countries in the region, as they are attracted by its excellent reputation, lower costs, and cultural and language similarities.

In order to cope with the increase in demand for treatment, the KHCC has begun an expansion programme. Building started in 2011 CE. The hospital will have more than doubled its capacity by 2016 CE, increasing space for new cancer cases from 3,500 per year to 9,000.

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow it. Your answer should be based on the text

Using Technology in Class

Young people love learning, but they like learning even more if they are presented with information in an interesting and challenging way. Today, I am going to give a talk about how you can use technology in Jordanian classrooms. Here are some ideas:

Many classrooms now use a whiteboard as a computer screen. As a consequence, teachers can show websites on the board in front of the class. Teachers can then use the Internet to show educational programmes, play educational games, music, recordings of languages, and so on.

In some countries, tablet computers are available for students to use in class. Therefore, students can use the tablets to do tasks such as showing photographs, researching information, recording interviews and creating diagrams. Tablets are ideal for pair and group work.

Space School

Studio schools are pioneering schools which receive funding as well as support from private businesses, and which seek to encourage young people to undertake a less conventional form of secondary education. These schools often specialise in one specific area, whilst understanding that the same broad range of skills and qualifications should be made available to all young people.

One such school has recently opened to educate fourteen- to eighteen-year-olds who have a special interest in working in the space industry. Students follow a tailor-made curriculum at the school, including subjects such as Astronomy and Astrophysics. Lessons are a mixture of small-class tutorials, with projects supervised by leading companies in both the space and technology industries.

Prominent scientists and engineers are brought in as guest lecturers, with students aiming to achieve top grades in their Maths and Science exams.
