- B) Modern cities sustainability, use the recycled water which helps of the environment.
- C) Modern cities, help recycled water which use the sustainability of the environment.
- D) Modern cities use recycled water, which helps the sustainability of the environment.

Question Two: (50 points)

Read the following text carefully, and then answer all the questions that follow. Your answers should be based on the texts.

Scientists have successfully invented a prosthetic hand with a sense of touch. It is an exciting new invention, which they plan to develop. It is possible that, in the not-too-distant future, similar prosthetic arms and legs will have taken the place of today’s prosthetic limbs. Dennis Sorensen, a 39-year-old from Denmark, was the first person to try out the new invention. After losing his left hand in an accident, he had been using a standard prosthetic hand for nine years.

The new hand, which was developed by Swiss and Italian scientists, was a huge improvement. With it, Sorensen could not only pick up and manipulate objects, but he could also feel them. ‘When I held an object, I could feel if it was soft or hard, round or square,’ he explained. He said that the sensations were almost the same as the ones he felt with his other hand.

Unfortunately, Sorensen was only taking part in trials, and the equipment is not ready for general use yet. He was only allowed to wear it for a month, for safety reasons. So now he has his old artificial hand back. However, he hopes that soon he will be wearing the new type of hand again.

1. Sorensen has his old artificial hand back for two reasons. Write these two reasons down.
.....
2. The new artificial hand with a sense of touch could be beneficial for different purposes. Write down two of these purposes.
.....
3. Find the phrase in the text which means “**made or produced by human beings.**”
.....
4. What does the underlined word “ones” refer to?
.....
5. Quote the sentence which shows the reason why Dennis needed a prosthetic hand.
.....
6. Having a prosthetic limb would help those who lost their hands or legs. Suggest three ways in which prosthetic limbs would improve someone’s life.
.....
.....
.....

Question Three: (10 points)

Free Writing:

In your ANSWER BOOKLET, write a composition of about 120 words on the following:
Some schools provide students with different activities and exercises to improve their creativity. Write an article discussing the types of activities and exercises you like to do in your school. Give reasons and examples to support your opinion.

The End
