The Internet of Things

A _____

Everyone knows that the Internet connects people, but now it does more than that – it connects objects, too. These days, computers often communicate with each other; for example, your TV automatically downloads your favourite TV show, or your 'sat nav' system tells you where you are. This is known as the 'Internet of Things', and there's a lot more to come.

B _____

In just a few years' time, experts say that billions of machines will be connected to each other and to the Internet. As a consequence, computers will increasingly run our lives for us. For example, your fridge will know when you need more milk and add it to your online shopping list; your windows will close if it is likely to rain; your watch will record your heart rate and email your doctor; and your sofa will tell you when you need to stand up and get some exercise!

C _____

Many people are excited about the 'Internet of Things'. For them, a dream is coming true. They say that our lives will be easier and more comfortable. However, **others** are not so sure. They want to keep control of their own lives and their own things. In addition, they wonder what would happen if criminals managed to access their passwords and security settings. The dream could easily become a nightmare!

11 Read the article once more, then answer the questions.

1 What does the 'Internet of Things' mean? Give an example from the text.

2 Find a word in the first paragraph which has the same meaning as 'speak to'.

3 How will the 'Internet of Things' help you to keep fit, according to the text?

4 What does the word 'others' in **bold** in the third paragraph refer to?

5 According to the text, why are some people excited about the future? Why are others worried?

6 In your opinion, is the 'Internet of Things' exciting or worrying? Why?

B _____

Health experts have been warning about this trend for years, and their advice is clear. Girls in particular often dislike PE. This can lead to serious health problems.

C _____

9 Read the article below and choose the best title.

- A Accident victim invents hand that can feel
- B Accident victim gets amazing new hand
- C Accident victim tests first artificial limb

Scientists have successfully invented a prosthetic hand with a sense of touch. It is an exciting new invention, which they plan to develop. It is possible that, in the not-too-distant future, similar artificial arms and legs will have taken the place of today's prosthetic limbs.

Dennis Sorensen, a 39-year-old from Denmark, was the first person to try out the new invention. After losing his left hand in an accident, he had been using a standard prosthetic hand for nine years. The new hand, which was developed by Swiss and Italian scientists, was a huge improvement. With it, Sorensen could not only pick up and manipulate objects, but he could also feel them. 'When I held an object, I could feel if it was soft or hard, round or square,' he explained. He said that the sensations were almost the same as the ones he felt with his other hand.

Unfortunately, Sorensen was only taking part in trials, and the equipment is not ready for general use yet. He was only allowed to wear it for a month, for safety reasons. So now he has his old artificial hand back. However, he hopes that soon he will be wearing the new type of hand again. He is looking forward to the time when similar artificial limbs are available for the thousands of people who need them. He will have helped to transform their lives.

- 1 Where was Rashed when he wrote the blog? _____
- 2 What did he most enjoy looking at? _____
- 3 Where did he go in the evening? _____
- 4 What bothered him? _____

Hi! My name is Rashed. I'm staying in London for a week, with my family. I hope you enjoy reading my blog.

Wednesday

Yesterday was brilliant. We decided to go to the Victoria and Albert Museum (also known as the V&A), which is a big museum of art and design in central London. It has one of the largest collections of Islamic art in the world and, as you can imagine, we were keen to **have a look**.

We spent most of our time in the Jameel Gallery, which opened in 2006
 5 CE. There were about 10,000 items on display (no, I didn't count them;
 the guide told us!). There were carpets and other textiles as well as pottery,
 ceramics, paintings and things made of ivory (from elephants), wood, metal
 and glass. My **favourite** thing was a beautiful Egyptian jug, which looked as
 if it was made out of glass. In fact it is rock crystal, and it was made over ten
 10 thousand years ago. The person who made it must have been incredibly skilled.

We were at the V&A all day (there's a good café there, and an excellent
 shop too!). Then, although we were quite tired, in the evening we went to a concert at the Royal
 Albert Hall. The orchestra was from Germany and it was brilliant! We had comfortable seats, but a
 lot of people stood right in front of the orchestra. They didn't sit down at all! **I've never stood all**
 15 **the way through a concert**, and I don't think I'd like to!

11 Read the blog post again and answer the questions.

- 1 Why did Rashed and his family decide to go to the V&A Museum?

- 2 Name four materials that Rashed mentions.

- 3 Look at the words and phrases in **bold**. Is Rashed using British or American English? Justify
 your answer.

- 4 Look at the sentences in brackets in lines 5–6. In your opinion, what question is Rashed
 answering and why?

- 5 Would you stand up all the way through a concert? Why/Why not?

Writing

You are going to write an argumentative essay about museums and modern culture.

12 Discuss your immediate reaction to the following statement: 'The purpose of museums is to educate.'

13 Do some research and make notes. Plan your essay according to the structure of your argument. Use a four-paragraph structure.

14 Before you write your essay, get your partner to check your plan. Is it clear and well-structured? Write about 120 words.

Reading

8 Read the text quickly. Use the context to guess the meaning of the underlined words and match them with their meanings. The first one is done for you.

After school ...

In England, almost 50% of school leavers go on to higher education. The figure has not always been as high as this. Twenty years ago, **it** was closer to 30%, and thirty years before that, it was only about 5%. **Another huge change** has been financial. Before 1998 CE, higher education in the UK was completely free for UK citizens. Since then, tuition fees ⁵ have been introduced. Most students borrow this money from the government. They don't have to repay it immediately. Instead, they pay it back slowly out of future earnings.

Despite the high cost, most students choose to study away from home. A recent survey of 17,000 students revealed that only 7% wanted to stay at home while they studied for their degree. Of course for most young people, living away from home means borrowing even ¹⁰ more money from the government. So why don't students choose to avoid debt by staying at home, where they don't have to pay rent? Most of them say that they want to move to the university of their choice, rather than the nearest one. Another strong motive is the desire to live in a new culture. Where do these students live? Many have rooms in halls of residence, especially in their first year; others rent flats or houses. A lucky minority ¹⁵ live in property that their parents have bought for them. Most of them need to learn to cook, do their own washing and manage their time and money.

1 accommodation provided by a university or college: halls of residence

2 reason for doing something:

3 not many, the opposite of 'majority':

4 costs, charges: _____

5 money you owe: _____

6 relating to money: _____

9 Are these statements true (T) or false (F)?
Correct the false statements.

1 The number of school leavers who go to university in England has greatly increased in the past 30 years.

2 It's more expensive to go to university than it used to be.

3 University students have to pay before they study.

4 Most university students choose the cheapest option.

10 Answer the following questions.

1 What does the word 'it' in **bold** refer to in the first paragraph?

Whatever you do, your teachers will be with you, acting as guides, tutors and friends.

Reading

8 Read the article and answer the questions.

What are they talking about?

It is fascinating to observe the way language is **absorbed** by a baby. He or she quickly learns to respond to certain sounds and words, for example 'mum' or 'dad'. Then, after a few months, the baby starts to try out **experimental** noises and **mimic** sounds. A one-year-old baby can probably say a few words – and certainly understands a lot more. After two years, many children have a vocabulary of about fifty words.

With twins, however, the story might be a little different. First of all, their development is sometimes slower. It is thought that this may be because some twins have less one-to-one interaction with adults than single babies have, and they spend more time communicating with each other. Secondly, some twins seem to develop their own unique language. While this is not very common, it is certainly fascinating. They speak – and seem to understand – strange 'words' and sounds that nobody else can make out. This is known as 'cryptophasia'. Certainly, what they say isn't understood by anyone else, but is it really a language?

Although it is **tempting** to believe that these twins really do make up their own secret language, the truth is probably much simpler. Most experts think that as both children are experimenting with language at the same time, and both have been presented with the same sounds and **stimuli** since birth, they are very likely to recognise what the other one says. In other words, they are both developing their 'real' language at the same **pace** and making the same mistakes along the way.

1 According to the article, twins do not always develop in the same way as single babies. How many differences does it describe, and what are they?

2 The article suggests one reason for the slower language development of some twins. What is it?

3 What does 'cryptophasia' mean?

4 Do some twins really communicate with strange words and signs?

5 Do most experts believe that twins invent secret languages?

business-today/sales/how-to-make-a-sales-pitch

Whether you're selling a new type of toothpaste to a chain of pharmacies, the latest computer software to a school or a new kind of package holiday to a travel agency – you need to know ...

How to make a sales pitch

1 Do your research

Don't come away from a sales pitch wishing you had been better prepared. It is essential to know everything about your product.

(1) _____ You also need to know who the target market is – for example, the age group or income of the people who might buy it. Not only that, you should know all about the competition – that is, similar products on the market. (2) _____

In addition, you should know exactly which people you are speaking to, and what their needs are.

For example, if they represent a middle-class department store in a humble neighbourhood, be ready to explain why your particular product would suit customers who do not have lots of money.

(3) _____

Most of all, you need to believe in what you're selling, and the best way to do that is to use it!

2 Prepare and practise

Plan your presentation carefully, not just what you will say, but how you will say it. (4) _____

Whatever you decide, it is always a good idea to have a list of your main points, in case something interrupts you, or you simply freeze with nerves (it happens!).

Then practise it, if possible in front of colleagues. Make changes and practise it again.

3 Be professional

Keep your presentation short and simple. Start with some friendly comments. (5) _____

Remember to speak slowly and clearly. It is important to appear confident (even if you're nervous!).

While you're speaking, don't keep your head down. (6) _____ Smile!

When you've finished speaking, invite questions. If you don't know the answers, don't pretend!

Thank the questioner and promise to find out the answer (and do it!).

Finally, have a summary of your presentation ready to hand out at the end of the session.

I wish I had known all this when I started out in business! Good luck!

Stepping into the business world

Business Studies is a popular choice for students who are choosing a degree course in the UK. After graduating, some go on to further study, but most of them take up employment. Many large companies offer graduate training schemes, (1) _____. We went to meet twenty-two-year-old Ricky Miles, who is about to graduate in the subject.

10 *How long have you been studying Business Studies, Ricky?*

It's a four-year course, including two periods of work experience. Each one lasted six months, (2) _____.

15 *What exactly have you studied over those four years?*

Quite a lot! Maths, of course, Accounting, Finance and Economics. Oh yes, **Marketing** and Sales, too. I also did a course in Management, which is about **recruiting** and managing staff, and how to deal with conflict, and a course in Advertising. We all had to do IT, too, (3) _____.

25 *What did you most enjoy about the degree?*

The work experience, definitely. I learnt so much, both times, (4) _____. One of the companies offered me paid work last summer, so I managed to get even more experience that way. Also, I wouldn't have had much money last year if I hadn't had that job!

What kind of company was that, and what did you do there?

35 It was a company that provides financial products – savings and **pensions**, mostly. At first I just 'shadowed' different people, (5) _____. Grammar notes

Module 1

UNIT 1

Revision of the tenses

The Present Simple

- We use the Present Simple to talk about
 - 1 something that is true in the present.
 - 2 things that are always true.
 - 3 things that happen as a routine in the present.
 - 4 scheduled or fixed events in the future.
- We use adverbs of frequency with the Present Simple.

The Present Continuous

- We use the Present Continuous
 - 1 to talk about something that is happening at the moment of speaking.
 - 2 to describe something temporary.
 - 3 for actions that happen repeatedly in the present. We use it with *always*.
 - 4 to talk about the future, where something has been planned.

The Present Perfect

- We use the Present Perfect to
 - 1 talk about something that was true in the past and continues to be true in the present.
 - 2 discuss our experience up to the present.
 - 3 talk about an action that happened in the past but the consequences of which are important in the present.
(*I've lost my keys.*)
- We do not use adverbial past time markers, such as *yesterday*, with the Present Perfect. We use adverbial time markers that relate to the present, such as *today*, *this week* or *this month*.

The Present Perfect Continuous

- We use the Present Perfect Continuous to talk about
 - 1 something that began in the past and continues in the present.

- 2 an action repeated many times from the past until the present.
- 3 a longer action recently finished the results of which are visible in the present. (*I've been painting the house. That's why I have some paint on my clothes.*)
- 4 when an action (still occurring in the present) started. We use it with *since*.

The Past Simple

- We use the Past Simple to
 - 1 talk about something that started and finished in the past.
 - 2 describe a routine in the past.
 - 3 talk about something that was true for an extended period of time in the past. In this case, we use it with a time phrase.

The Past Continuous

- We use the Past Continuous to
 - 1 talk about something which was happening before and after another action in the past.
 - 2 show that something happened for a long time in the past.

The Past Perfect

- We use the Past Perfect to talk about actions that happened before a specific moment in the past.

The Future with *will*

- We use *will* to talk about the future if we are predicting it without evidence.
- We use it to express spontaneous decisions.
- We can use it with *perhaps*, *probably* and *maybe*.
- We can also use it with *I think* and *I hope*.

The Future with *going to*

- We use *going to* to talk about
 - 1 future plans. It does not have to be for the near future.
 - 2 predictions that are based on evidence.

Reported speech

- When we need to report what someone said, as opposed to writing direct speech, the tenses change as follows:

Tense in direct speech	Tense in reported speech
The Present Simple <i>I'm a teacher.</i>	The Past Simple <i>He said he was a teacher.</i>
The Present Continuous <i>I'm having lunch with my parents.</i>	The Past Continuous <i>She said she was having lunch with her parents.</i>
The Present Perfect <i>I've been to France three times.</i>	The Past Perfect <i>He said he had been to France three times.</i>
The Present Perfect Continuous <i>I've been working very hard.</i>	The Past Perfect Continuous <i>He said he had been working very hard.</i>
The Past Simple <i>I bought a new car.</i>	The Past Perfect <i>He said he had bought a new car.</i>
The Past Continuous <i>It was raining earlier.</i>	The Past Perfect Continuous <i>She said it had been raining earlier.</i>
The Past Perfect <i>The play had started when I arrived.</i>	The Past Perfect NO CHANGE POSSIBLE
The Past Perfect Continuous <i>I'd already been living in London for five years.</i>	The Past Perfect Continuous NO CHANGE POSSIBLE

- In most cases, all the verb tenses in a sentence change in reported speech, except when we want to avoid ambiguity.
'You should only connect to people you know well.'
He said that you should only connect to people you know well. (If we use *knew*, the sentence might refer to people that you used to know well in the past.)
- When we need to report the pronoun *you*, we change it into *we* or *they* if it's plural, and *I* or *he/she/it* if it's singular.

Module 2

UNIT 2

My mother used to buy my clothes, but now I choose my own.
She used to be a teacher, but now she's retired.
I used to like cartoon films when I was younger. These days I prefer action films.

By the time the bus arrived, we had been waiting for an hour.

By 2019 CE, the new motorway will have opened.
We're late! By the time we get to the station, the train will have gone.

Module 3

UNIT 4

Cleft sentences

- A cleft sentence is a complex sentence (one with a main clause and a dependent clause). We can usually express the meaning of a cleft sentence with a simple sentence. It is called 'cleft' sentence because there are two parts to the sentence.
- We use cleft sentences in order to emphasise certain pieces of information.
- We join the most important piece of information to a relative clause, often with *who*, *where* or *that*.
- We can start cleft sentences with the following phrases, among others:
The thing that ...
The person who ...
The time when ...
The place where ...
The way in which ...
It ...

- When we begin a cleft sentence with *It*, the relative clause usually begins with *that*.
Huda won the prize for Art last year.
The person who won the prize for Art last year was Huda.
The prize that Huda won last year was for Art.
It was last year that Huda won the prize for Art.
The Olympic Games were held in London in 2012 CE.
It was in 2012 CE that the Olympic Games were held in London.
London was the place where the Olympic Games were held in 2012 CE.
The event that took place in London in 2012 CE was the Olympic Games.

Relative clauses

Defining relative clauses

- Defining relative clauses are used to identify which particular person, place or thing is being talked about. The defining relative clause is usually connected to the main clause by a relative pronoun such as *who*, *which*, *that*, *where* or *when*. We use *who* (and sometimes *that*) to refer to people; *which* and *that* to refer to things and animals; *where* to refer to places and *when* to times. *Whose* is the possessive form of *who*.
He's the man whose daughter I met in Jordan.
- In some defining relative clauses, the relative pronoun can be omitted.
The person (who is) known as the founder of chemistry is probably Jabir ibn Hayyan.

Non-defining relative clauses

- Non-defining relative clauses are used to give more detail about a particular person, place or thing that is being talked about. The non-defining relative clause (underlined in the examples below) is usually connected to the main clause by a relative pronoun such as *who*, *which*, *where* or *when*.
The Sahara desert, which is in Africa, is very hot.
- A non-defining relative clause differs from a defining relative clause in that it gives additional, rather than essential, information and, without it, the sentence would still convey meaning.
The Sahara desert is very hot.
- Non-defining relative clauses follow a noun and are enclosed between two commas (or dashes or brackets), unless completing the sentence.
- In non-defining relative clauses, the relative pronoun is never omitted.

The architect of the tower was Ahmad Ben Baso, who began work in 1184 CE.
(~~NOT The architect of the tower was Ahmad-Ben Baso, began work in 1184 CE.~~)

UNIT 5

Articles

- We usually use *a/an* before countable nouns when we are mentioning them for the first time.
Hassan lives in a big house. There is a garden next to it with an apple tree.
- However, if we are talking about something that the listener/reader knows about, we use *the*.
Hassan lives in the big house near the library.
The garden is beautiful.
- We use *the* when we are talking about something that is unique.
The Earth goes round the Sun.
She's the only woman to have won two Nobel Prizes.
- We use *the* when we are talking about seas, oceans, rivers, groups of islands (but NOT individual islands) and countries that include *the* in their name.
The Mediterranean Sea separates Europe from Africa.
Sri Lanka is in the Indian Ocean.
They took a boat trip along the river Nile.
In the summer, we are going to travel to the Canary Islands in Spain.
I've never been to the United States.
- We use *the* when we are talking about superlative adjectives.
The longest river in the USA is the Mississippi.
- We use no article with uncountable and plural nouns, and for general statements.
Chocolate tastes good.
That shop sells sweets.
Children usually like sweets and chocolate.
Sheep produce wool, and hens lay eggs.
- We use no article before most countries, languages, continents, individual mountains, lakes, waterfalls, towns, streets, days, months and years.
The language spoken in Jordan is Arabic.
Libya is in Africa.
He was the first man to climb Mount Everest.
They have a home near Lake Geneva.
Niagara Falls separates Canada from the USA.
They live in Oxford Street in London.
She was born on Monday, 23 April.
The university was opened in 2001 CE.

British English vs. American English

- American English (AE) rarely uses the Present Perfect, whereas British English (BE) does:
(AE) *Did you see that film yet?*
(BE) *Have you seen that film yet?*
- American English uses *gotten* as the past participle of *got*:
(AE) *He had gotten us some ice cream.*
(BE) *He had got us some ice cream.*
- American English uses *have to* to show possession, whereas British English uses *have got*:
(AE) *I have a sister. Do you have a brother?*
(BE) *I've got a sister. Have you got a brother?*

Module 4

UNIT 6

Quantifiers to make comparisons

- We can use *more/less ... than*, *as ... as* and *the most/least* to compare adjectives and adverbs.
Which subjects are the most popular, and which are the least popular?
Is Maths as popular as Science?
Do you think Geography is more interesting than History, or less interesting?
- We can also use *as ... as* to compare adverbs.
Mahmoud works as hard as his brother.
I can't run as fast as you.
- We use *as much/as many* to compare quantities and numbers.
There are not as many people in our class as in yours.
I don't eat as much fast food as my brother.
- We can also use *as ... as* adverbially.
I don't like running as much as I like swimming.
We practise our English as often as possible.

UNIT 7

Indirect questions

- We can use indirect questions to ask questions in a polite, formal way.
- We can begin impersonal questions with *Could you tell me ...; Do you know ...; Do you mind telling me ...; Could you explain ...*
- The structure is then the same as in reported questions. Unlike reported questions, the sentence ends with a question mark.
- *Yes/No* questions are introduced with *if* or *whether*.

Do you know if/whether there's a library near here, please?

- Other questions are introduced with *what*, *who*, *why*, *when*, *where*, *how*, etc.
Could you tell me what the time is, please?
Do you know who that man is?
Do you mind telling me why the train is late?
Could you tell me where the nearest bank is, please?
Could you explain how you solved this puzzle?

The impersonal passive

- The impersonal passive is a formal way of reporting thoughts, sayings, beliefs and opinions.
- We can use the impersonal passive with *say*, *think*, *claim* and *believe*.
It is said that dolphins are highly intelligent.
It used to be thought that the Earth was flat.
It is believed that learners will absorb the grammar as they learn the vocabulary.
- The impersonal passive can also be formed with the object + infinitive.
The story is believed to be true.
(They believe that the story is true.)
So, People know that he is talented becomes He is known to be talented.

Module 5

UNIT 8

Phrasal verbs

- A phrasal verb is a verb that is followed by one or two particles that change its meaning.
We're asking candidates to carry out a short task.
- Some phrasal verbs can have objects after them (they are called transitive verbs).
They came up with a good idea. We're looking into the problem.
- Some phrasal verbs do not have objects (they are called intransitive verbs).
Where did you grow up?
My sister and I get on well.
- Sometimes the object can go between the verb and the particle, so the verb and the particle are separated. With these verbs, object pronouns always go before the particle.
Please point the problem out. Point it out.
(NOT *Point out it.*)

- Sometimes the verb and particle cannot be separated.

They came up with a good idea.

(NOT ~~*They came a good idea up with.*~~)

Question tags

- We use question tags to check or query information. We add a negative question tag to a positive statement, and a positive question tag to a negative statement.

You've read this book, haven't you?
You haven't read this book, have you?
She does speak English, doesn't she?
She doesn't speak English, does she?
You're tired, aren't you?
You're not tired, are you?
- With modal verbs, we use the same modal in the question tag.

They should help, shouldn't they?
We can't walk away, can we?
They could go, couldn't they?
You won't forget, will you?
He might play tomorrow, mightn't he?
We mustn't be late, must we?
- In the Present and Past Simple of *be*, we use *is/isn't/are/aren't* and *was/wasn't/were/weren't* in the question tags.

The meeting is next Wednesday, isn't it? It isn't tomorrow, is it?
They are coming, aren't they?
It wasn't last Wednesday, was it?
They were Algerian, weren't they?
- In the Present and Past Simple of other verbs, we use *do/don't, does/doesn't* and *did/didn't* in the question tags.

You do speak English, don't you?
He lives in Wadi Musa, doesn't he?
You didn't meet him, did you?
- In other verb forms, we use the auxiliary verb in the question tag.

They've had their lunch, haven't they?
- With *Let's ...* we use *shall we* as the question tag.

Let's go home now, shall we?
- We can rephrase questions starting *Shall I...?* to use a question tag. This makes it more emphatic.

Shall I help you with your homework?
I'll help you with your homework, shall I?
- The following table summarises how question tags are formed:

Main verb tense	Auxiliary for question tags
Present Simple <i>She doesn't eat any sweets,</i>	Present Simple form of <i>do</i> <i>does she?</i>
Present Continuous <i>You are reading a book,</i>	Present Simple form of <i>be</i> <i>aren't you?</i>
Past Simple <i>You studied hard for the test,</i>	Past Simple form of <i>do</i> <i>didn't you?</i>
Present Perfect <i>They haven't been to Germany,</i>	Present Simple form of <i>have</i> <i>have they?</i>
Past Perfect <i>He hadn't met him before,</i>	Past Simple form of <i>have</i> <i>had he?</i>

Modals

Sentences with <i>Let's</i> <i>Let's go to the library,</i>	Question tag with <i>shall</i> <i>shall we?</i>
Sentences with modals <i>can/can't; will/won't; should/shouldn't; mightn't; must/mustn't</i>	Question tag with the same modal verb

Revision of passive forms

- In passive sentences, the subject of the sentence has something done to it, or is affected by the action of the verb. The opposite is an active sentence, where the subject of the sentence performs the action. Passive sentences do not have to mention who or what is performing the action (the agent). If they do, the agent is introduced with *by*.

	Simple	Continuous	Perfect Simple
Present	<i>The competition is held every year.</i>	<i>The festival is being planned by the committee</i>	<i>The school has been renovated recently.</i>
Past	<i>Many important things were invented in the 20th century.</i>	<i>The students were being tested on their grammar.</i>	<i>When you finished your homework, the cake had been eaten.</i>
Future	<i>The project will be completed before the deadline.</i>	<i>I can't come tomorrow. I will be being interviewed for a job.</i>	<i>By 2025 CE, our public transport system will have been changed.</i>

- Simple passives are formed by *be* in the appropriate simple tense + the past participle of the verb.
- Continuous passives are formed by *be* in the appropriate continuous tense + the past participle of the verb.
- Perfect simple passives are formed by *be* in the appropriate perfect simple tense + the past participle of the verb.

UNIT 9

Unreal past forms for past regrets

- We use *wish* or *If only* + Past Perfect to express regrets about the past. We might use it to reflect on past actions if we are trying to improve our work or our behaviour.
- The tense of the verb after *wish* is more in the past than the action it is describing.
I wish I had done more work for my exam.
(I didn't do much work for my exam.)
I wish I hadn't bought these shoes. They hurt my feet.
We're late. If only we'd caught the earlier bus.

Unreal past forms for present wishes

- We use *wish* or *If only* + Past Simple to express wishes about the present that are impossible or unlikely to happen.
I wish I knew the answer.
I wish we lived in a bigger flat.
- With the verb *to be*, both *was* and *were* can be used with *I*, *he*, *she* and *it*.
He wishes he was/were taller.
If only we were older.

Module 6

UNIT 10

Zero and first conditionals with future time phrases

- We use the zero conditional (*if* + Present Simple/Present Simple) to describe something that always happens (the inevitable consequence) after a certain action or event.
If plants don't get enough sunlight, they die.
Water turns to ice if the temperature falls below zero.
- We use the first conditional (*if* + Present Simple/*will* + Present Simple) to describe a future outcome of a certain future action or event.
If you get an interview for a job in pharmaceuticals, you will need to show real enthusiasm for the industry.
- We can use *provided that*, *as long as*, *unless*, *when* and *even if* in the same way as *if*, but they don't all mean the same thing.
I'll buy the book if/provided that/as long as it isn't too expensive.
(I won't buy it if it is too expensive)
I'll buy it unless it's expensive.
(I'll buy it if it isn't too expensive.)

I'll buy it even if it's expensive.
(I will buy it. The price isn't important.)

The third conditional

- We use the third conditional (*if* + Past Perfect/*would have* + past participle) to imagine past situations. These past situations are impossible, and did not happen.
- The *if*-clause states one event that did not happen.
If I had stayed at home that day, I would have missed the celebration.
(The person did not stay at home that day.)
- The main clause states the result, which also did not happen:
If I had stayed at home that day, I would have missed the celebration.
(The person attended the celebration.)
I wouldn't have gone to the library if my friend hadn't invited me.
(My friend invited me to the library, so I went.)
If I'd studied harder, I'd have passed the exam.
(I didn't study very hard, and I didn't pass.)

The third conditional with *could* and *might*

- When we are talking about the imaginary past, we can use *could have* or *might have* + past participle in place of *would have* + past participle.
- We use these past modals when we are less sure of the result of the impossible past situation.
If I had prepared better for the competition, I might have won the first prize.
(The speaker is not sure that this would have been true.)
If I had slept better the night before the exam, I could have concentrated better.
(It is possible that the speaker would have been able to concentrate.)
If I'd gone to a different school, I might not have studied French. I could have taken English.
Our team could have won the match if they'd trained harder, and then they might have been champions now if they'd won.

The second conditional (revision)

- We use the second conditional (*If* + Past Simple, *would/wouldn't* + infinitive) to talk about imaginary or unlikely events.
If we were in London today, we would be able to go to the British Museum.

Sample writing activities

Unit 1 Sample discursive essay

The advantages and disadvantages of online shopping

Introduction:

Introduce the situation in one or two sentences. Then write a thesis statement which outlines what you will write about.

→ Most people now use the Internet on computers, smartphones and tablets to do a variety of tasks. For many people, these tasks include online shopping. From shopping for groceries to all kinds of clothes shopping, consumers are finding this the easiest way to get what they need, literally at the touch of a button. However, there are numerous and important disadvantages to shopping in this way.

Body: Explain in detail both sides of the discussion.

→ Although using the Internet to shop is usually fairly easy, and there is often greater variety available, it is always a risk because you cannot try on or see in detail the item you wish to buy. In fact, the immediate 'convenience' of shopping in this way can end up being an inconvenience if the item is faulty or does not fit, or is just not what the customer wanted. It is true that the prices are better when you shop online, but, while it might be cheaper, there is a distinct disadvantage because you have to wait for the delivery of the purchases. Some people might prefer not to have any personal contact while shopping online, but it can save time in the end since there are always assistants to help with queries you might have during the transaction. In addition to this, there is the issue of Internet payment security; however, recently this has improved a lot.

Conclusion:

Summarise briefly all aspects of the discussion. State your opinion.

→ The Internet has indeed given us a wider choice as consumers, as well as made some aspects of shopping more pleasant and convenient. However, it is nearly impossible, in my opinion, to forget the disadvantages we experience from time to time, since these can and do influence the way in which we choose to shop.

Useful language:

However, there are many disadvantages...; It is true that...; but...; In addition to this,...; Moreover, the Internet has changed how we live so dramatically that...; In my opinion,...; There is a distinct/strong advantage/disadvantage...

Unit 2 Sample report 1

Title: Keep it concise and informative.

Participation in the arts in London, England

Introduction: Explain what information your report will include. Two or three sentences are enough.

Introduction

The aim of this report is to provide information concerning participation in the arts in London, England. It will include factors which discourage people from taking part, and suggest ways to increase participation.

Informative paragraphs: Use subheadings. Cite percentages and fractions according to research. Do not write your own opinions.

Current situation

I interviewed people between the ages of 15 and 50 who live in London. Just under half of the people who were interviewed said they took part in music, drama or art. The most popular activity was taking music lessons, followed by going to art galleries and concerts. Drama and dance classes were popular with people in their thirties, because classes are social occasions.

Factors preventing fuller participation

About 40 per cent of people asked said that they did not enjoy the arts, giving reasons such as boredom for this. The other 60 per cent said that most arts-related activities were too expensive, such as theatre visits or music lessons. Some people said that finding a good teacher was difficult.

Recommendations/ Conclusions: Sum up your findings and suggest next steps. Use bullet points to illustrate separate points.

Recommendations

It is important to focus on those who currently do not participate in the arts at all by

- arranging a subsidised program for those who want to study music or dance but do not have enough money
- publicising and presenting cheaper theatre performances
- further research into reasons why people do not enjoy the arts.

Unit 2 Sample report 2

A study was done to find out about the number of people who participate in the arts in London. We wanted to find out what kind of arts activities people preferred, whether they liked watching drama or dance, going to galleries, or participating actively in the arts scene. We also wanted to suggest how to improve participation in the arts.

About forty per cent of the people that we asked said that they took part in arts activities. This included music and dance lessons, as well as trips to art galleries and theatres. The remaining sixty per cent of people said that they could not afford to do these things, or that they did not find them interesting.

In conclusion, it might be a good idea to get funding to make some arts activities a lot cheaper to do. This would increase participation from those who already take part, as well as make the activities more attractive for the people who do not participate at the moment.

Unit 2 Sample plan of a report

Free-time activities available in [your town]

Introduction

This report examines the free-time activities that [your town] has to offer. [include details of the town such as population, size, geographical location; list main types of entertainment that can be found, such as sport, music and the arts, public services, shopping]

Subheading 1 [e.g. Sport]

[detail the sports facilities and available sports, and any terrain that might encourage e.g. cycling or running; describe how popular each sport is, and note the type of people who practise it]

Subheading 2 [e.g. Music and the arts]

[detail any theatres or concert halls, say what is currently showing what has shown in the past; include any youth orchestras and include the level of achievement; include cinemas and galleries if possible]

Subheading 3 [e.g. Public services]

[include any libraries, museums, parks or other public services]

Conclusion

[sum up the information; comment on whether there is much or little to do in [your town]; include a recommendation for what could be improved (and how) if applicable]

Useful language:

The aim of this report is to...; A study was done to find out...; Just under a quarter of those interviewed...; The majority of the respondents said.../85 per cent of respondents said...; Only a minority of those questioned said.../10 per cent of those questioned said...

Unit 3 Sample descriptive essay

Worldwide transport in the future

Introduction: Make a general statement, then state your opinion.

It is of course difficult to say exactly what transportation will look like in the future, because of the infrastructural changes that are happening constantly at the moment. To me, it seems that transport may well have changed a lot in one hundred years' time.

Body: Describe some aspects of the essay topic, dividing the material between paragraphs, depending on your focus.

Perhaps there will be no more private transport by 2115 CE. It is possible that public transport will have improved so much that no one will need their own cars. We might all be zooming around in ecologically-sound electric buses and trams that will take us to our destinations smoothly!

In order to get to other countries, we will be taking airships, which will be like aeroplanes but with more facilities available. It will be possible to travel to the other side of the world in much less time, because these airships will race around at a far greater velocity.

Conclusion: Summarise your descriptions and relate them back to the introduction.

Finally, modes of transport are always changing, depending on many different factors, but one thing is certain; we will still be travelling the whole world! Life is a journey, and the possibilities for travel keep growing. We might even be able to experience weightlessness by travelling to space!

Descriptive essays include:

- introduction and personal viewpoint
- conclusion and personal viewpoint
- more detailed descriptions
- rhetorical devices
- language for prediction

Unit 4 Sample summary of an article

The Masdar City megaproject

The article discusses Masdar City, which is an example of a 'megaproject'. A megaproject is a large-scale investment project designed to stimulate the economy and benefit the population. The author states that this project is currently being undertaken in Abu Dhabi and has attracted a lot of both positive and negative attention.

The author goes on to say that, whilst it has been praised for its environmentally-friendly status, some people argue that we should prioritise sustainability in already existing cities, rather than creating new ones.

Whatever the opinion, it is clear that the project is a landmark of urban planning and a precursor of megaprojects to come.

Useful language:

The article discusses...; The author states that...; The author goes on to say that...; Some [people] argue that...; others insist that...; Whatever the opinion, it is clear that...; The author concludes that...

Unit 5 Sample skeleton of an argumentative essay

'Craftspeople are skilled workers and should be paid better salaries.'

It is universally understood that everyone deserves a salary in proportion with the difficulty, danger and ultimate importance of the work that they do. For this reason, it must be argued that craftspeople deserve larger salaries.

Body paragraph plan 1:

- Crafts are important to continue awareness of history and traditions (opposing view – is this really important any more?)
- Crafts are sold at vast expense; people who make these items should see most of the profits (opposing view – it is no different from any other trade; those who sell take the larger profit)

Body paragraph plan 2:

- Unskilled staff such as waiters are paid low wages because it is a job with a high staff turnover and little skill involved; craftspeople dedicate their lives to this craft and still receive little money for their work (opposing view – the world is changing; there is no place for craftspeople any more)
- The dangerous work that goes into craftsmanship should be well rewarded; it is not comparable to receiving the occasional burn as a waiter or waitress (opposing view – it would drive up the costs of the crafts further)

For the reasons stated above, it can be clearly seen that craftspeople are owed a livable salary that reflects the risk they put themselves in daily, as well as their contribution to keeping Jordanian traditions alive.

A good argumentative essay:

- presents relevant evidence
- puts forward a convincing argument
- does not ignore one side of the argument
- attempts to persuade the reader to agree

Unit 5 Sample argumentative essay (opposing view)

'Craftspeople are skilled workers and should be paid better salaries.'

Introduction:

Start with a few facts on the subject. Follow with your thesis statement, which states what side of the argument you are on.

The job done by craftspeople only helps the economy if the people who publicise and sell their work are successful. Traditional crafts are usually not well publicised and are sold in very small amounts. This means that it would be impossible to provide a full and regular salary to a craftsperson.

Body paragraph 1:

Write your argument, giving reasons. Add more details to your opinion in the thesis statement.

These days, it is common for people to choose mass-produced goods for the simple reason that they cost less and can be relied upon. What is more, it is evident that the world is changing, and that the place that craftspeople hold in society is becoming less affordable. For this reason they should not be paid an increased wage.

Body paragraph 2:

Write a sentence or two to acknowledge the opposing argument. You should then refute it.

It could be argued that craftspeople endure difficult and tiring days and receive little money in recognition of this. However, they learn their trade as apprentices and do not have to suspend their income or pay a large amount of money for four years to get a university degree.

Conclusion:

Rephrase your thesis statement and back it up with a fact or two that you have mentioned in your body paragraphs.

Thus it can be seen that craftspeople should not be paid increased salaries, because of the restructured economic system and the consequent shift in the importance of the crafts they produce.

Useful language:

It is understood that...; It is often suggested that...; Many people believe that...; It is evident that...; For this reason...; It could be argued that...; Thus it can be seen that...

Unit 6 Sample blog post

Title: Write a short, catchy title. Write who the post is by.

Decisions, decisions

Posted by: Hiba 😊

Introduction: Appeal to your readers. Ask a question, such as advice.

Do you know what you're going to study at university? I've come up with some ideas but I really need your help! Do get in touch if you have any stories or advice that you think might help me to make this life-changing choice.

Body paragraphs: State your problem or blog post subject in more detail.

Firstly, I want to help people, but Science is not my strongest subject so I won't be able to do Medicine. I could study Psychology and follow a career path in that area, but I don't know much about it. If any of you are Psychology students, please do message me about your course. I'd love to hear about it – what you love, what you like, and of course what you don't like at all!

Secondly though, I'd really like to study something like Linguistics, because I've always been interested in language. I've done some research and found out that, while it doesn't lead directly to a career, it is interesting and academic, as well as a well-respected degree. Can you help me get a better picture of it?

Conclusion: Restate your question or subject and ask readers to get involved.

So, can you help me with my decision? We could start up a useful conversation about choosing paths for ourselves at this next exciting stage!

Blog-writing tips:

- Address your reader personally (*you, your, etc.*)
- Remember you want their attention and involvement so give them reasons, using *because* or *so [that]*.

Unit 7 Sample persuasive letter

Greeting: Use an appropriate greeting, depending on whether it is a formal or an informal letter.

Introduction: State why you are writing.

Dear Mr Hammad,

I am writing in view of the recent news that instruction in all modern languages at our school will be cancelled as of next year. A large proportion of the student body is extremely upset at this.

However, there are wider implications of this move to stop teaching modern languages. In the first place, the school would lose many gifted students. This would result in falling performance across the school.

In addition to this, the school would attract students with similar interests, which would have a negative impact on student wellbeing. It is well-known that students develop empathy and awareness in a nurturing, all-inclusive environment.

Most worryingly, Modern Languages is a department which is growing in popularity as global job opportunities become more and more attainable. I am sure that you would not wish them to be disadvantaged by having no exposure to modern language teaching.

Therefore, if language teaching must be done by way of after-school or lunchtime clubs, so be it, but cutting this area of study completely would be detrimental to both the school and the students.

I hope you will consider this letter when deciding the future of our school. Thank you.

Yours sincerely,
Nawal Mohsen

My dad then explained that we would be going to my favourite restaurant for a celebratory brunch. I ran upstairs to get changed, and we set off to the restaurant.
- c I should explain that I'm going to university to study Zoology (the study of living things) but I've never been to this particular reserve, and it is a passion of mine! _____ .

- e Suffice to say that the meal was delicious. _____ . When we had finished, my dad just drove on with a smile on his face... I finally realised we were heading towards the Dhana Nature Reserve!

Unit 9 Sample review [of a hotel]

Charles Hotel, Paris ★★☆☆

Introduction: Give a general report.

→ I recently stayed at this hotel for a few nights during a conference, and it did not entirely live up to expectations. On its website it is billed as 'stylish, state-of-the-art and chic', which was true, but the service was not quite as high a standard as it could have been.

Body: Cover both positive and negative aspects.

→ Since I arrived fairly late in the evening my first night, there was nobody at Reception to check me into my room. However, someone came to help me immediately after I rang the bell on the desk. Throughout my stay, I experienced some negative aspects of service, such as a lack of towels and delayed room service, but I was met with excellent responses to requests made in the restaurant, as well as an atmosphere of general helpfulness and politeness. I was happy to deal with the few oversights as I know that hotel staff work hard for long hours.

Conclusion: Summarise and recommend.

→ I would very much like to visit Paris again, and I enjoyed the view, architecture and atmosphere of the hotel very much. The service could be improved, but it didn't detract from a fairly pleasant stay. I recommend this hotel to anyone interested in Parisian architecture.

Reviews include:

- 1 introduction (say what you are reviewing/some background)
- 2 general overview
- 3 conclusion and recommendation (state your overall opinion)
