Question One (21 points): Read the following texts carefully, and then in your answer booklet, answer all the questions that follow. Your answer should be based on the texts.

TEXT ONE:

At a surgery in London, 70 per cent of patients who were offered the choice between a herbal or a conventional medicine for common complaints such as insomnia, arthritis and migraines chose the herbal remedy. Fifty per cent of patients then said that the treatment helped. One doctor said, "I now consider homoeopathy to be a viable option for many different conditions, including anxiety, depression and certain allergies. It provides another option when conventional medicine does not address the problem adequately."

1. Based on the text, name three illnesses that can be treated through homoeopathy. (6 points)
2. What does the underlined pronoun "I" refer to? (3 points)

TEXT TWO:

As a result of careful planning, the number of healthcare services has been increasing rapidly over the past years. More than 800 different kinds of healthcare centres have been built, as well as 188 dental clinics. In 2014 CE, 98 per cent of Jordanian children were fully immunised, thanks to immunisation teams that had been working towards this goal for several years. Although there were remote areas of the country where people had been without consistent access to electricity and safe water, almost 99 per cent of the country's population now has access.

3. Quote what proves that "an individual's immune system becomes protected against an illness". (3 points)
4. What is the ratio of the country's population who now has access to electricity and safe water? (3 points)

TEXT THREE:

"The population of Jordan increased from approximately 2.3 million in 1980 CE to about 9.7 million in 2017 CE. It is expected that the population will keep on increasing, and by 2050 CE it will be about 11.7 million."

5. How do you think this increase in population will affect Jordan's housing, education and health facilities?" (6 points)
