Ibn Bassal was a writer, a scientist and an engineer who lived in Al-Andalus in the eleventh century CE. He worked in the court of Al-Ma'mun. His great passion was botany. Ibn Bassal was a practical man and all of his writing came from his own 'hands-on' experience of working the land. One of the many things which Ibn Bassal achieved was *A Book of Agriculture*. The book consisted of sixteen chapters which explain how best to grow trees, fruit and vegetables, as well as herbs and sweet-smelling flowers; perhaps the most famous chapter of all was the one that described how to treat different types of soil. He designed water pumps and new systems for irrigating plants.

The influence of Ibn Bassal's book was enormous. As farmers down the generations followed his instructions and advice, the land became wonderfully fertile and produced more than enough food for the fast-growing population. The irrigation systems that he and his followers put in place are still in evidence in Spain. Although his name is not widely known, Ibn Bassal's legacy to the world has been great.

Text Two: (25 points)

In this report, we will look at the countries that Jordan trades with and what goods it exports and imports. First, let's look at exports. Jordan is rich in potash and phosphate, and the extraction industry for these minerals is one of the largest in the world.

Not surprisingly, two of Jordan's largest exports are chemicals and fertilisers. Pharmaceuticals and other industries represent 30% of Jordan's Gross Domestic Product (GDP), and 75% of Jordan's pharmaceuticals are exported. However, the majority (65%) of the economy is dominated by services, mostly travel and tourism. Most of Jordan's exports go to Iraq, the USA, India and Saudi Arabia.

Now let's look at imports. Unlike some other countries in the Middle East, Jordan does not have large oil or gas reserves. For that reason, Jordan has to import oil and gas for its energy needs. Its other main imports are cars, medicines and wheat. In 2013 CE, 23.6% of Jordan's imports were from Saudi Arabia. This was followed by the EU, with 17.6% of its imports. Other imports have come from China and the United States.

1. Most of Jordan's exports mainly go to four countries. Write two of these countries down. (4 points)
2. What is the percentage that services, especially travel and tourism, represent of Jordan's economy? (4 points)
3. Jordan is rich in two minerals. Write them down. (4 points)
4. What does the underlined pronoun "it" refer to? (4 points)
5. Quote the sentence which indicates the country that supplied Jordan with most of its imports in 2013. (5 points)
6. What are the main four goods that Jordan has to import from different countries? (4 points)

Megaprojects are extremely large investment projects, which are designed to encourage economic growth and bring new benefits to cities. Although megaprojects vary in terms of size and cost, **they** are all, by definition, expensive, public projects that attract a high level of interest and media coverage. Projects range from motorways, airports, stations, tunnels, bridges, etc. to entire city complexes.

The concept of a megaproject is always based on the benefits it brings to a community. However, many megaprojects have been criticised because of their negative effects on a community or the environment.

Masdar City, which began its development in 2006 CE, will be the world's first carbon-neutral, zero-waste artificially-created city. Energy will be provided by solar power and wind farms, and there are also plans to build the world's largest hydrogen plant. A desalination plant will be used to provide the city's water, with 80% of water used being recycled. Biological waste will be used as an energy source too.

- 1) Megaprojects are designed for two reasons. Write these two reasons down. (4 points)
- 2) The text provides some examples of megaprojects. Write two of these examples down. (4 points)

Mr Ghanem: Of course! I arrived on time. You must not arrive late, as this shows disrespect. Then, when I met the company director, I shook hands with him gently. I began the meeting by making small talk about my interesting experiences in China. During the meeting, I made sure that my voice and body language were calm and controlled. I never told a joke, as this may not be translated correctly or could cause offence.

Question Two: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Megaprojects are extremely large investment projects, which are designed to encourage economic growth and bring new benefits to cities. Projects range from motorways, airports, stations, tunnels, bridges, etc. to entire city complexes.

The concept of a megaproject is always based on the benefits it brings to a community. However, many megaprojects have been criticised because of their negative effects on a community or the environment.

Masdar City, which began its development in 2006 CE, will be the world's first carbon-neutral, zero-waste artificially-created city. Covering an area of six square kilometres, when it is completed in 2025 CE, it is expected to house more than 40,000 residents, 50,000 commuters, and 1,500 businesses involved in mainly environmentally-friendly products.

The city will run entirely on renewable energy sources. It is built on an advanced energy grid which monitors exactly how much electricity is being used by every outlet in the complex.

Furthermore, in order to reduce its carbon footprint, Masdar City will be a car-free zone, designed to be pedestrian and cycle-friendly. Electric, driverless cars will operate as public transport vehicles, and the city will be connected to other locations by a network of roads and railways.

1. The text provides many examples of megaprojects. Write down four of these examples. (8 points)
2. There are some procedures that will be implemented to reduce carbon footprint in Masdar City. Write down three of these procedures. (6 points)
3. Write down the sentence that shows the main reason for criticising megaprojects. (4 points)
4. How many people are expected to live in Masdar City? (4 points)
5. When will Masdar City be completed? (4 points)
6. What does the underlined pronoun "It" refer to? (4 points)

Question Three: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

In this report, we will look at the countries that Jordan trades with and what goods it exports and imports.

First, let's look at exports. Jordan is rich in potash and phosphate, and the extraction industry for these minerals is one of the largest in the world.

Not surprisingly, two of Jordan's largest exports are chemicals and fertilisers. Pharmaceuticals and other industries represent 30% of Jordan's Gross Domestic Product (GDP), and 75% of Jordan's pharmaceuticals are exported. However, the majority (65%) of the economy is dominated by services, mostly travel and tourism. Most of Jordan's exports go to Iraq, the USA, India and Saudi Arabia.

Now let's look at imports. Unlike some other countries in the Middle East, Jordan does not have large oil or gas reserves. For that reason, Jordan has to import oil and gas for its energy needs. Its other main imports are cars, medicines and wheat. In 2013 CE, 23.6% of Jordan's imports were from Saudi Arabia. This was followed by the EU, with 17.6% of its imports. Other imports have come from China and the United States.

Jordan has more free trade agreements than any other Arab country, and it trades freely with many countries, including the USA, Canada and Malaysia.

Which other areas are important for Jordan's trade? Jordan first signed a trade agreement with the EU in 1997 CE. It signed a free trade agreement with Egypt, Morocco and Tunisia in 2004 CE. In 2011 CE, another trade agreement was made with the EU, Egypt, Morocco and Tunisia. Trade with the EU and North Africa in particular is likely to grow.

1. Many of Jordan's fertilisers are made mainly of two minerals. Write these two minerals down. **(6 points)**
2. Why does Jordan import a lot of oil and gas? **(4 points)**
3. Which country supplies Jordan with most of its imports? **(4 points)**
4. Jordan trades freely with different countries. Write down two of these countries. **(6 points)**
5. The text states the main goods that Jordan has to import from different countries. Write down three of these main goods. **(6 points)**
6. Find a word in the above text which means "things kept back or set aside, especially for future use". **(4 points)**

Question Four: (20 points)**Free Writing**

In your ANSWER BOOKLET, write a composition of about 80 words on ONE of the following:

1. Some jobs are difficult. No one wants to do them and they are just taken because people have no choice. Other jobs are really fun. Write an essay mentioning examples of both types of jobs and describe the difficulty and excitement of both kinds of jobs.
2. Many jobs require ongoing training to stay competitive in a company. Some believe that it is the responsibility of the company to pay for this training for their staff; others think it's up to the individual. Write an essay discussing both views and giving your own opinion.

Question Two: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

The concept of a megaproject is always based on the benefits it brings to a community. However, many megaprojects have been criticised because of their negative effects on a community or the environment. An example of megaprojects is Masdar City, which began its development in 2006 CE in Abu Dhabi. Masdar City will be the world's first carbon-neutral, zero-waste artificially-created city.

The city will run entirely on renewable energy sources. It is built on an advanced energy grid which monitors exactly how much electricity is being used by every outlet in the complex. Furthermore, in order to reduce its carbon footprint, Masdar City will be a car-free zone, designed to be pedestrian and cycle-friendly. Electric, driverless cars will operate as public transport vehicles, and the city will be connected to other locations by a network of roads and railways.

Energy will be provided by solar power and wind farms, and there are also plans to build the world's largest hydrogen plant. A desalination plant will be used to provide the city's water, with 80% of water used being recycled. Biological waste will be used as an energy source too, and industrial waste will be recycled. The current residents of Masdar City are all students at the Masdar Institute of Science and Technology, a university whose students are fully committed to finding solutions to the world's energy problems.

Business Studies is a popular choice for students who are choosing a degree course in the UK. After graduating, some go on to further study, but most of them take up employment. Many large companies offer graduate training schemes, which are a kind of apprenticeship. We went to meet twenty-two-year-old Ricky Miles, who is about to graduate in the subject. Ricky has been studying Business Studies, which is a four-year course, including two periods of work experience. Each one lasted six months, but they weren't in the same year. Besides Business Studies, Ricky has studied Maths, Accounting, Finance, Economics, Marketing and Sales over those four years. He also did a course in Management, which is about recruiting and managing staff.

Ricky most enjoyed the work experience. He learnt so much, both times, and of course it looks great on his curriculum vitae. One of the companies offered him paid work last summer, so he managed to get even more experience that way.

Ricky has just applied for a job with a bank. He has the right qualifications, but he knows there will be a lot of other applicants. He'll just have to wait and see if he gets an interview. If he does, he'll have to prepare really carefully.

1. The text states many subjects that graduate students may study at university. Write down three of them. (6 points)
2. What do most of students do after graduating? (6 points)
3. What is the name of Ricky's degree? (4 points)
