Question Two: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Ten-year-old Adeeb al-Balooshi, from Dubai, is going to travel to seven countries on a tour which has been organised and funded by Sheikh Hamdan bin Mohammad, Crown Prince of Dubai.

The boy caught Sheikh Hamdan's attention with his invention – a prosthetic limb for his father. The Sheikh has taken a special interest in the boy, and hopes the tour that he is sponsoring for Adeeb will give the young inventor more self-confidence and inspire other young Emirati inventors.

Adeeb got the idea for a special kind of prosthetic leg while he was at the beach with his family. His father, who wears an artificial leg, could not swim in the sea as he could not risk getting his leg wet. This inspired Adeeb to invent a waterproof prosthetic leg. Adeeb is going to visit the USA, France, the UK, Ireland, Belgium, Italy and Germany, where he will be staying with relatives. However, while he is in Germany, Adeeb will not be spending all his time sightseeing. He will be working with a specialist doctor to build the appendage. He will also be attending a course on prosthetics and learning about different kinds of medical apparatus.

Adeeb has invented several other devices, including a tiny cleaning robot and a heart monitor, which is attached to a car seat belt. He has also invented a fireproof helmet which will help rescue workers in emergencies. It is for these reasons that Adeeb rightly deserves his reputation as one of the youngest inventors in the world.

1. Adeeb will be doing some activities while staying in Germany. Write down three of these activities. (9 points)
2. The text states different useful devices that Adeeb invented. Write down three of these devices. (6 points)
3. Write down the sentence that states how Adeeb attracted the attention of Sheikh Hamdan. (5 points)
4. Find the word in the text that means "the common opinion that people have about someone or something". (4 points)
5. It is said that necessity is the mother of invention. Think of this statement and, in two sentences, write down your point of view. (6 points)

Question Three: (30 points)

A) Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text. (24 points)

Business Studies is a popular choice for students who are choosing a degree course in the UK. After graduating, some go on to further study, but most of them take up employment. Many large companies offer graduate training schemes, which are a kind of apprenticeship. We went to meet twenty – two – year – old Ricky Miles, who is about to graduate in the subject. Ricky has been studying Business Studies, which is a four –year course, including two periods of work experience. Each one lasted six months, but they weren't in the same year. Ricky has studied Maths, Accounting, Finance and Economics, Marketing and Sales over those four years. He also did a course in Management, which is about recruiting and managing staff, and how to deal with conflict.

Ricky most enjoyed the work experience. He learnt so much, both times, and of course it looks great on his curriculum vitae. One of the companies offered him paid work last summer so he managed to get even more experience that way. It provides financial products – savings and pensions, mostly. He just 'shadowed' different people, watching what they were doing, and did quite a lot of checking for them – checking their calculations. When he went back in the summer, he was in the sales department. His job was to follow up web enquiries, and send out further information to possible clients.

1. Ricky Miles studied different courses to get a degree in Business Studies. Write down three of these courses. **(6 points)**
2. Ricky Miles' job in the sales department required doing two tasks. Write these two tasks down. **(4 points)**
3. What does the underlined word they in the text refer to? **(4 points)**
4. Students in the United Kingdom choose one of two paths after graduation. Write these two paths down. **(4 points)**
5. There are so many benefits of work experience for students. Suggest three of these benefits. **(6 points)**
