Question Number Three (20 marks)

A) Read the following text carefully, and then in your ANSWER BOOKLET answer all the question that follow. Your answer should be based on the text.

TEXT ONE: 1 (10 marks)

At school I was very good at English. Therefore, I decided on a career as an interpreter. My job now involves going to important conferences and seminars around the world. When a person speaks in English at a conference, I listen to what they say through headphones. I then translate into Arabic while the speaker is talking. I give the translation through headphones to other people at the meeting. Is it an easy job? Not at all. English is not the same in all English-speaking countries. For example, the English words that are used in India are sometimes different to the words that people use in the UK, the USA or Australia. As well as knowing regional English, you also need to know a lot of specialist language. Some of the words that are used to talk about business, science or law, for example, make it almost a different language! If you get an interview for a job, you will need to show that you have good listening skills and a clear speaking voice. You will also need to show that you can think quickly and that you are able to concentrate for long periods of time.

1. A successful translator is one who translates texts carefully without making any mistakes. Write down your point of view in two sentences.
2. Quote the sentence that indicates that Fatima decided to work as an interpreter.
3. According to the text, write the sentence that show there are differences between the English terminology used in India and other languages.
